

CONTENTS

PART 1 INTRODUCTION

Chapter 1 Geotechnical Instrumentation: An Overview / 3

- 1.1 What Is Geotechnical Instrumentation?, 3
- 1.2 Why Do We Need to Monitor Field Performance?, 3
- 1.3 What Capabilities Must the People Have?, 5
- 1.4 What Capabilities Must the Instruments Have?, 5
- 1.5 Where Have We Been?, 5
- 1.6 Where Are We Now?, 5
- 1.7 Where Are We Going?, 10
- 1.8 The Key to Success, 12

Chapter 2 Behavior of Soil and Rock / 13

- 2.1 Behavior of Soil, 13
- 2.2 Behavior of Rock, 23

PART 2 PLANNING MONITORING PROGRAMS

Chapter 3 Benefits of Using Geotechnical Instrumentation / 33

- 3.1 Benefits During Design, 33
- 3.2 Benefits During Construction, 34
- 3.3 Benefits After Construction Is Complete, 36
- 3.4 General Considerations, 36

Chapter 4 Systematic Approach to Planning Monitoring Programs Using Geotechnical Instrumentation / 37

- 4.1 Define the Project Conditions, 37
- 4.2 Predict Mechanisms that Control Behavior, 38
- 4.3 Define the Geotechnical Questions that Need to Be Answered, 38
- 4.4 Define the Purpose of the Instrumentation, 38
- 4.5 Select the Parameters to Be Monitored, 38
- 4.6 Predict Magnitudes of Change, 38
- 4.7 Devise Remedial Action, 39
- 4.8 Assign Tasks for Design, Construction, and Operation Phases, 39
- 4.9 Select Instruments, 40
- 4.10 Select Instrument Locations, 42

- 4.11 Plan Recording of Factors that May Influence Measured Data, 43
- 4.12 Establish Procedures for Ensuring Reading Correctness, 43
- 4.13 List the Specific Purpose of Each Instrument, 43
- 4.14 Prepare Budget, 43
- 4.15 Write Instrument Procurement Specifications, 44
- 4.16 Plan Installation, 44
- 4.17 Plan Regular Calibration and Maintenance, 44
- 4.18 Plan Data Collection, Processing, Presentation, Interpretation, Reporting, and Implementation, 44
- 4.19 Write Contractual Arrangements for Field Instrumentation Services, 44
- 4.20 Update Budget, 44

Chapter 5 Specifications for Procurement of Instruments / 45

- 5.1 Task Assignment for Procurement, 45
- 5.2 Specifying Method, 46
- 5.3 Basis for Determining Price, 47
- 5.4 Content of Specifications for Procurement of Instruments, 49

Chapter 6 Contractual Arrangements for Field Instrumentation Services / 57

- 6.1 Goals of Contractual Arrangements, 57
- 6.2 Definition of Terms, 57
- 6.3 Contractual Arrangements for Instrument Installation, 59
- 6.4 Contractual Arrangements for Regular Calibration and Maintenance, 61
- 6.5 Contractual Arrangements for Data Collection, Processing, Presentation, Interpretation, and Reporting, 61
- 6.6 Content of Specifications for Field Instrumentation Services, 63

PART 3 MONITORING METHODS

Chapter 7 Measurement Uncertainty / 75

- 7.1 Conformance, 75
- 7.2 Accuracy, 75
- 7.3 Precision, 75
- 7.4 Resolution, 76
- 7.5 Sensitivity, 76
- 7.6 Linearity, 76
- 7.7 Hysteresis, 76
- 7.8 Noise, 77
- 7.9 Error, 77

Chapter 8 Instrumentation Transducers and Data Acquisition Systems / 79

- 8.1 Mechanical Instruments, 79
- 8.2 Hydraulic Instruments, 80
- 8.3 Pneumatic Instruments, 87
- 8.4 Electrical Instruments, 92

Chapter 9 Measurement of Groundwater Pressure / 117

- 9.1 Instrument Categories and Applications, 117
- 9.2 Observation Wells, 118
- 9.3 Open Standpipe Piezometers, 118
- 9.4 Twin-Tube Hydraulic Piezometers, 123
- 9.5 Pneumatic Piezometers, 126
- 9.6 Vibrating Wire Piezometers, 127
- 9.7 Electrical Resistance Piezometers, 128
- 9.8 Miscellaneous Single-Point Piezometers, 130
- 9.9 Multipoint Piezometers, 136
- 9.10 Hydrodynamic Time Lag, 139
- 9.11 Types of Filter, 141
- 9.12 Recommended Instruments for Measuring Groundwater Pressure in Saturated Soil and Rock, 141
- 9.13 Recommended Instruments for Measuring Pore Water Pressure in Unsaturated Soil, 144
- 9.14 Saturation of Filters, 146
- 9.15 Installation of Piezometers in Fill, 148
- 9.16 Installation of Piezometers by the Push-in Method, 148
- 9.17 Installation of Piezometers in Boreholes in Soil, 150
- 9.18 Installation of Piezometers in Boreholes in Rock, 163

Chapter 10 Measurement of Total Stress in Soil / 165

- 10.1 Instrument Categories and Applications, 165
- 10.2 Embedment Earth Pressure Cells, 165
- 10.3 Contact Earth Pressure Cells, 177

Chapter 11 Measurement of Stress Change in Rock / 185

- 11.1 Applications, 185
- 11.2 Instrument Categories, 185
- 11.3 Soft Inclusion Gages, 186
- 11.4 Rigid Inclusion Gages, 191
- 11.5 Recommended Procedures for Measurement of Stress Change in Rock, 195

Chapter 12 Measurement of Deformation / 199

- 12.1 Instrument Categories, 199
- 12.2 Surveying Methods, 199
- 12.3 Surface Extensometers, 209
- 12.4 Tiltmeters, 216
- 12.5 Probe Extensometers, 219
- 12.6 Fixed Embankment Extensometers, 233
- 12.7 Fixed Borehole Extensometers, 237
- 12.8 Inclinometers, 250
- 12.9 Transverse Deformation Gages, 268
- 12.10 Liquid Level Gages, 275
- 12.11 Miscellaneous Deformation Gages, 292

Chapter 13 Measurement of Load and Strain in Structural Members / 297

- 13.1 Instrument Categories and Applications, 297
- 13.2 Load Cells, 297

- 13.3 Surface-Mounted Strain Gages, 306
- 13.4 Embedment Strain Gages, 320
- 13.5 Determination of Existing Stress, 326
- 13.6 Concrete Stress Cells, 327

Chapter 14 Measurement of Temperature / 331

- 14.1 Applications, 331
- 14.2 Mercury Thermometer, 332
- 14.3 Bimetal Thermometer, 332
- 14.4 Thermistor, 333
- 14.5 Thermocouple, 333
- 14.6 Resistance Temperature Device (RTD), 334
- 14.7 Frost Gages, 335
- 14.8 Other Transducers for Measurement of Temperature, 336
- 14.9 Comparison Among Transducers for Remote Measurements, 336
- 14.10 Installation of Transducers for Measurement of Temperature, 338

PART 4 GENERAL GUIDELINES ON THE EXECUTION OF MONITORING PROGRAMS

Chapter 15 A Recipe for Reliability of Performance Monitoring / 341

- 15.1 Instrument Ingredients in a Recipe for Reliability, 341
- 15.2 People Ingredients in a Recipe for Reliability, 342

Chapter 16 Calibration and Maintenance of Instruments / 343

- 16.1 Instrument Calibration, 343
- 16.2 Instrument Maintenance, 345

Chapter 17 Installation of Instruments / 347

- 17.1 Contractual Arrangements for Installing Instruments, 347
- 17.2 Locations of Instruments, 347
- 17.3 Detailed Installation Procedures, 348
- 17.4 Installation at the Ground Surface, 348
- 17.5 Installation in Boreholes, 348
- 17.6 Installation in Fill, 358
- 17.7 Installation in Underground Excavations, 363
- 17.8 Protection from Damage, 363
- 17.9 Acceptance Tests, 364
- 17.10 Installation Records, 364
- 17.11 Installation Schedule, 364
- 17.12 Coordination of Installation Plans, 365
- 17.13 Field Work, 365
- 17.14 Installation Report, 366

Chapter 18 Collection, Processing, Presentation, Interpretation, and Reporting of Instrumentation Data / 367

- 18.1 Collection of Instrumentation Data, 367
- 18.2 Processing and Presentation of Instrumentation Data, 374
- 18.3 Interpretation of Instrumentation Data, 382
- 18.4 Reporting of Conclusions, 384

PART 5 EXAMPLES OF INSTRUMENTATION APPLICATIONS**Chapter 19 Braced Excavations / 389**

- 19.1 General Role of Instrumentation, 389
- 19.2 Principal Geotechnical Questions, 390
- 19.3 Overview of Routine and Special Applications, 400
- 19.4 Selected Case Histories, 400

Chapter 20 Embankments on Soft Ground / 407

- 20.1 General Role of Instrumentation, 407
- 20.2 Principal Geotechnical Questions, 407
- 20.3 Overview of Routine and Special Applications, 410
- 20.4 Selected Case Histories, 410

Chapter 21 Embankment Dams / 417

- 21.1 General Role of Instrumentation, 417
- 21.2 Principal Geotechnical Questions, 418
- 21.3 Long-Term Performance Monitoring of Embankment Dams, 423
- 21.4 General Guidelines on the Execution of Monitoring Programs for Embankment Dams, 432
- 21.5 Selected Case Histories, 435

Chapter 22 Excavated and Natural Slopes / 443

- 22.1 General Role of Instrumentation, 443
- 22.2 Principal Geotechnical Questions, 443
- 22.3 Overview of Routine and Special Applications, 448
- 22.4 Selected Case Histories, 448

Chapter 23 Underground Excavations / 453

- 23.1 General Role of Instrumentation, 453
- 23.2 Principal Geotechnical Questions, 455
- 23.3 Overview of Routine and Special Applications, 461
- 23.4 Selected Case Histories, 461

Chapter 24 Driven Piles / 467

- 24.1 General Role of Instrumentation, 467
- 24.2 Principal Geotechnical Questions, 467
- 24.3 Overview of Routine and Special Applications, 479
- 24.4 Selected Case Histories, 479

Chapter 25 Drilled Shafts / 483

- 25.1 General Role of Instrumentation, 483
- 25.2 Principal Geotechnical Questions, 483
- 25.3 Overview of Routine and Special Applications, 489
- 25.4 Selected Case Histories, 489

PART 6 THE KEY TO SUCCESS**Chapter 26 The Key to Success: The Chain with 25 Links / 493**

PART 7 APPENDIXES

- A. Checklist for Planning Steps / 501**
- B. Checklist for Content of Specifications for Procurement of Instruments / 505**
- C. Checklist for Content of Specifications for Field Instrumentation Services / 507**
- D. Commercially Available Geotechnical Instruments / 511**
- E. Details of Twin-Tube Hydraulic Piezometer System / 519**
- F. Dimensions of Drill Rods, Flush-Joint Casing, Diamond Coring Bits, Hollow-Stem Augers, and U.S. Pipe / 527**
- G. Example of Installation Procedure, with Materials and Equipment List / 533**
- H. Conversion Factors / 539**
- References / 541**
- Index / 563**
