

CONTENTS

Foreword

Organising Committee vii

Advisory Committee

Opening Addresses

Opening of the Conference xiii

JAMES DREVER

Principal and Vice-Chancellor, Dundee University

Ready mixed concrete and its role in the construction industry xv

KENNETH NEWMAN

Director-General, British Ready Mixed Concrete Association

Chairman: Ravindra K. Dhir, *Dundee University*

Theme 1 Plant and Equipment

Chairman Terence C. Grogan

*Chairman, British Ready Mixed Concrete Association
(Scottish Branch)*

A review of production methods and their development in the ready mixed concrete industry 3

George Crowther

Developments in batching plant and equipment to meet the needs of the ready mixed concrete industry

James H. Ewenson

Recent development of ready mixed concrete batching plant

James B. Hayes and Per Henrick Nielsen

Development of truck mixers due to demands made by the ready mixed concrete industry 35

Ian C. Leggott

Removal of effluent and water re-cycling in concrete works 48

M. C. Héaton

Discussions 55

Contents

Theme 2 Concrete Materials

Chairman Peter Russell

*Chief Advisory Engineer and Manager, Scotland
Cement and Concrete Association*

| | |
|--|-----|
| Natural aggregates for ready mixed concrete <i>G. E. Peter Jackson</i> | 63 |
| The use of moderate to high shrinkage aggregates for making concrete <i>T. Tharmabala, C. M. Sangha and R. K. Dhir</i> | 76 |
| A modern approach to fly-ash in concrete <i>Iain A. Smith</i> | 89 |
| The use of pozzolanic and other admixtures in preblended cement and grouts <i>John C. Blenkinsop and Harold W. Bradbury</i> | 95 |
| The facts about lightweight concrete <i>D. Brian Horler</i> | 104 |
| Admixtures for concrete in the ready mixed concrete environment <i>John D. Lincoln</i> | 112 |
| Flowing concrete and its values <i>Bryan R. Tutt</i> | 123 |
| Steel fibre concrete in the ready mixed industry <i>Richard E. Beckett</i> | 127 |
| Discussions | 135 |

Theme 3 Properties of Fresh and Hardened Concrete

Chairman Barry P. Hughes

Professor of Civil Engineering, Birmingham University

| | |
|--|-----|
| Fresh concrete and the workability problem <i>Geoffrey H. Tattersall</i> | 147 |
| Workability of concrete—a testing method <i>Rune Hård and Nils Petersons</i> | 159 |
| “K” slump tester <i>M. C. Heaton</i> | 169 |
| Plasticising admixtures in corresponding mixes <i>Rodney M. Edmeades and Peter C. Hewlett</i> | 177 |
| Core-cube relationships of plain concrete <i>Chander M. Sangha and Ravindra K. Dhir</i> | 193 |
| Discussions | 203 |

Theme 4 Specifications and Compliance Procedures

Chairman William J. E. Miles
Chairman, Concrete Society (Scotland)

| | |
|--|-----|
| Uses and limitations of specifications <i>John D. Parkinson</i> | 215 |
| Specifications and compliance—a ready mixed concrete suppliers point of view <i>Andrew J. Black</i> | 221 |
| Consulting engineers approach to ready mixed concrete <i>Jim Dallaway and John Bradford</i> | 233 |
| BRMCA code for specification and compliance <i>Raymond Hopwood</i> | 241 |

Theme 5 Mix Design and Quality Control

Chairman G. E. Peter Jackson
Director, Tilling Construction Services Ltd

| | |
|--|-----|
| Mix design for local materials <i>Barry P. Hughes</i> | 253 |
| A method for the selection of concrete mix proportions incorporating fly ash pozzolans <i>Philip L. Owens</i> | 269 |
| The mix design and properties of pumped concrete <i>Harold Roper</i> | |
| Quality control of ready-mixed concrete <i>Fergus Walker</i> | 291 |
| The variation in the compressive strength of ready mixed concrete <i>I. Soroka</i> | |
| Harmonising production control and specification procedures <i>Norman Shipley</i> | 301 |
| Accelerated strength testing <i>R. K. Dhir, C. M. Sangha and F. A. M. Saeed</i> | 31 |
| How soon is soon enough? <i>Bryant Mather</i> | 331 |
| Discussions | 337 |

Theme 6 Transportation and Placing

Chairman D. Cameron Lindsay
Joint Managing Director, Whatlings Ltd.

| | |
|--|-----|
| Transportation effects on concrete workability <i>John G. L. Mundav</i> | 343 |
|--|-----|

| | |
|--|-----|
| Losses in air content during transportation <i>Björn Hellström and Nils Petersons</i> | 354 |
| Effects of improper handling of ready-mixed concrete <i>Fred W. Beaufait</i> | 359 |
| Modern mobile concrete pumps <i>Ian C. Leggott</i> | |
| High pressure concrete pumps <i>F. E. Godfrey</i> | 373 |
| Surface preparation and surface treatment of concrete <i>Ian Gilmour</i> | 381 |
| Pumpable concrete and concrete pumping <i>A. Johansson, K. Tuutti and N. Petersons</i> | |
| Continuous casting—large, rich, quick <i>Michael E. FitzGibbon</i> | |
| Discussions | |
| Theme 7 The Economics of Ready Mixed Concrete | |
| Chairman Kenneth Newman <i>Director-General, British Ready Mixed Concrete Association</i> | |
| Getting the sums right <i>John R. Illingworth</i> | 429 |
| The cost of placing concrete by pump <i>John B. Oldfield</i> | 446 |
| The relative economics of alternative materials in Portland cement concretes <i>Philip L. Owens</i> | |
| Discussions | 463 |
| Closing Discussions | |
| Chairman Anthony R. Cusens <i>Professor, Civil Engineering Department, Dundee University</i> | |
| List of Participants | 479 |
| List of Exhibitors | 489 |
| Index of Authors and Contributors | 491 |
