

CONTENTS

	Page
Section I : Protection Policies and Programs	1
1. Implementation of the Safe Drinking Water Act	3
2. Functions of the National Drinking Water Advisory Council	11
3. Identification of Organic Compounds in Effluents from Industrial Sources	25
4. The Role of Section 208 Planning in Protecting Drinking water Sources	39
5. The Water Supply Industry and Source Protection	63
6. Drinking Water Quality Enhancement Through Source Protection-New England Experiences	71
7. Drinking Water Quality Enhancement Through Source Protection in E.P.A. Region III	91
8. Chemical Treatment Costs and Problems Related to Raw Water Quality	101
9. State Programs for Protection of Drinking Water Sources in the Environmental Protection Agency, Region VII	119
10. Surveillance and Monitoring Program for Connecticut Public Water Supply Watersheds	137
Section II : Ground Water Protection	151
11. Underground Injection Control Program and Potential Effects on Ground Water	153
12. Protection Provided the Edwards Underground Reservoir by the Safe Drinking Water Act	163
13. Effects of Industrial hazardous Waste Disposal on the Ground Water Resource	179
14. Minimizing the impact of land Disposal of Sludges on Water Supplies	209
15. An Assessment of Potential Ground Water Pollution Associated with Land Application of Domestic Effluent	235
16. Protection of Ground Water From Nonpoint Sources of Pollution	257
17. Contamination of Potable Ground Water Supplies in Rural Areas	275
18. Wetlands and Municipal Ground Water Resource Protection	297
Section III : Surface Water Protection	317
19. Drinking water Quality Through Enhancement of Source Protection	319
20. Mobilization of Metal Contaminants in Surface Water Supplies	329
21. Assessment of Existing Methodologies for Evaluation and Control of Watershed Land use in Drinking Water Supply Systems	345
22. Options for Controlling natural Organics	375
23. The National organic Monitoring Survey : Samplings and Analyses for Purgeable Organic Compounds	393
24. Bis-2 (Chloroethyl) Ether Removal from Drinking Water by Source Protection	417
25. Algal Pollutants and Potable Water	431
26. The Effects of Recreation on Water Quality and Treatability	461
27. Planning Recreation at Water supply Reservoirs	477
28. Surface Water Quality Enhancement Through Source Protection as Shown by Water Quality Indices	503
29. Problems in Protecting Backcountry Water Supplies	527
30. Means for Protecting the Drinking Water Quality of Lake George, New York	545
31. Source Protection on a Multipurpose Lake : A Utility's Perspective	567
32. Impact of urbanization of Water Quality in the Pequannock Watershed	583
Index	605
