

## CONTENTS

	Page	
List of Contributors	v	
Preface	vii	
Part One	Mechanisms in Marine Pollution	
Chapter 1	Mechanisms and Problems of marine pollution in relation to commercial fisheries	3
I	Introduction	5
II	Atmospheric pollution	8
III	Pollution and the chemical elements	22
IV	Essentials of the biology of marine fish and shellfish relevant to pollution studies	28
V	Waterborne pollution	53
VI	Organic poisons, inhibitors and contaminants	65
VII	Particulate pollution	81
VIII	North Sea Oil and gas	102
IX	Pollution nationwide	137
X	Today's reckoning	148
XI	References	151
Part Two	Topics in Marine Pollution	
Chapter 2	Dispersion in estuaries and inshore water	159
I	Editor's prologue	159
II	Introduction	160
III	Continuous discharge	161
IV	Discontinuous discharge	165
V	Observed values of K, the diffusion coefficient	172
VI	A Broader look	174
VII	References	183
Chapter 3	Heavy metal contamination in the sea	185
I	Introduction	185
II	Sources of metals	187
III	Metals in sea water	197
IV	Sediments	206
V	Metals in marine estuarine organisms	212
VI	Toxic effects of heavy metals	248
VII	Effects of contamination	272
VIII	References	190
Chapter 4	Sewage and the sea	303
I	Introduction	303
II	The essential inorganic nutrients	311
III	Nutrient enrichment from sewage	320
IV	An assessment of the general effects of sewage in the marine environment	332
V	Summary, Conclusions and recommendations	346
VI	Appendix	348
VII	References	348
Chapter 5	Oil Pollution of the sea	353
I	Introduction	353
II	Oil production and losses to the sea	354
III	Oil Pollution research	364
IV	General considerations	389
V	References	395

Chapter 6	Seabirds and pollution	403
I	Introduction	403
II	The life of seabirds	406
III	Types of pollution	408
IV	Pollution in different oceans and groups of birds	463
V	Conclusion	481
VI	Acknowledgements	481
VII	Appendix Estimations of Chlorinated Hydrocarbons in marine birds	482
VIII	References	494
Part Three	Measurements of Biological Response	
Chapter 7	The evaluation of biological response by toxicity and water quality assessments	515
I	Introduction	505
II	Biological response as measured by toxicity tests	521
III	The assessment of long-term biological response	543
IV	Biological response and water quality evaluation	566
V	Conclusion and further outlook	576
VI	References	577
Part Four	Legal Aspects in Marine Pollution	
Chapter 8	Legal aspects of marine pollution control	589
I	Introduction	589
II	Controls at the international level	593
III	Control at the national level	668
IV	Final conclusions	697
	Suggestions for further reading	699
	Subject index	705
