

CONTENTS

	Page
Foreword	v
Preface	vii
Editor's Preface	ix
Introduction	
1. Agrochemicals in the Environment	3
2. Impacts of Agriculture on Wild Plants and Animals in the UK : chemical Impacts in Perspective	11
3. Potential for Using Agricultural Waste as a Valuable Resource	31
4. Immunochemical Analysis of Pesticides in the Aquatic Environment : s-triazine Herbicides	46
5. A Farming Viewpoint	60
Sources of Information	
6. Information Sources for Chemistry, Agriculture and the Environment	81
7. Terminology and Nomenclature in Data on the Environment	91
Pollution of the Biosphere - Fertilizers	
8. Nitrogen Losses from Grassland System under Temperate climatic Conditions	121
9. Losses of Methane and Ammonia from Grassland Production systems	133
10. Spatial Variability of Water and Nitrate Migration in Soil on a Parcel Scale	157
11. Leaching of Nutrient elements from Fertilizers into Deeper Soil Zones	185
12. Changes in Chemical Composition of Soil as an Effect of Several yeas' Fertilization of Alfalfa (<i>Medicago media</i> L.) with Slurry and Liquid Manure	209
13. The Effects of Nitrogen Fertilizer Plant Effluent Discharges in Soil	221
Pollution of the Biosphere - Pesticides	
14. Groundwater contamination by Herbicides – Processes and Evaluation Criteria	235
15. Contamination of Surface Waters, Sediment, and Biota from a Pesticide Manufacturing Factory	255
16. Effect of Soil Type on Pesticide Threat to the Soil/Groundwater Environment	291
17. Agricultural Sprayer Design to Minimize Environmental contamination	308
18. Behaviour of Organic Agrochemicals in Irrigated Soils	332
Human Health Aspects	
19. Human Health Aspects of Nitrate Intake from Food and Water	373
20. Pesticides, Environmental Pollution and Human Health in China	389
21. Pesticide Contamination and Pesticide Control in developing Countries : Costa Rica, Central America	410
22. Pesticides in Water – Human Health, Agricultural and Environmental Aspects	429
23. Health Advisories for Pesticides	444
24. Pesticides in the tropics – Benefits and Hazards	453
25. Operator Exposure to Agrochemical Sprays	459
26. Toxicology and Risk Assessment of Pesticides	466
27. Human Health Impact of Pesticides in the Environment	491
28. Epilogue	511
Subject Index	527
