

CONTENTS

	Page
I Introduction	1
A. Organic Chemicals in Natural Waters	1
B. Manufacturing Chemists' Association's Interests	3
C. Scope of Literature Review	3
D. Mode of Study	3
II Review and Evaluation of Techniques	5
A. Oxygen Uptake Studies	6
B. Chemical Oxygen Demand (COD)	12
C. Chemical Analysis – Total Carbon	13
D. Bioassay Methods	15
E. Model Treatment Plant Studies	21
F. Summary	23
III Reported Environmental behavior of Organic Chemicals	25
A. Studies Simulating Lake Microbiological Conditions	25
B. Studies Simulating Biological Treatment Plant Conditions	37
C. Studies with Pure Cultures of Microorganisms	49
D. Bioassay Studies	61
IV Critical Evaluation	85
V Bibliography	107
