

**CONTENTS**

	Page
1. Introduction	5
2. Current Problems	5
3. Waste Water	7
3.1 Data	7
3.2 Waste-water disposal problems	9
3.3 Simplified waste-water collection and treatment	10
3.4 Toxic and persistent wastes	10
3.5 Re-use of waste water	10
3.6 New materials and processes	11
3.7 Plants and equipment	11
4. Solid Wastes	12
4.1 Data	12
4.2 Technology	14
4.3 Plants and equipment	16
5. Administration and Management	17
5.1 Operations research	17
5.2 Regional management of wastes	18
5.3 Economic management	19
5.4 Public education	19
5.5 Manpower	20
5.6 Collection and dissemination of information	21
6. Research Needs	22
6.1 Basic data	23
6.2 Technology	24
6.3 Installations	24
6.4 Administration and management	25
7. Recommendations	25
Annex Bibliography	27
