

CONTENTS

	Page
Contents of Volume 1	vii
19. Information Reliability	391
I Standard Deviations	392
II Poisson Series	395
References	398
20. Chemical and Physical processes in Water Treatment	399
I Coagulation and Flocculation	399
II Filtration	409
III Chemical treatment	414
References	424
21. Tube Settlers	427
I Theory	428
II Application of Sedimentation Theory	430
References	442
22. Ion Exchange	443
References	455
23. Electrodialysis	457
I theory	457
II Electrodialysis in Operation	460
References	470
24. Thermal Pollution	471
I Power Plants	471
II Biological Involvement	472
III Design Work	473
IV Stream Model	475
V Control	479
References	485
25. Reverse Osmosis	487
I Membrane characteristics	488
II Factors Affecting Performance	490
III Types of Cell Arrangement	491
IV Experiences with Production Units	493
V Experimental Demonstration units	493
References	495
26. Freezing and Thawing in Water Purification	497
I General concept	497
II Crystallization	498
III Refrigeration methods	499
IV Separation and Wash Unit	502
References	504
27. Flotation	507
I Dispersed Air Flotation	508
II Dissolved Air Flotation	509

III	Use of chemicals	510
	References	523
28.	Solvent Extraction in Removing Pollutants	525
I	Phenol recovery from Coal Distillation Liquors	528
II	Phenol Recovery from a Plastics Plant	531
III	Phenol Recovery from Catalytic Cracking Units	532
IV	Desalination by Solvent Extraction	533
	References	539
29.	Incineration of Sludge Wastes	541
I	Sludge Dewatering	542
II	Burning Liquids or Gases	545
	References	553
30.	Sterilization and Disinfection	555
I	Sterilization	555
II	Disinfection	564
	References	571
31.	Deep well Disposal	574
I	State Regulations	574
II	Geological Study of Formation in the Area	574
III	Hydrogeological Considerations	576
IV	Drilling a Deep Well	579
V	Suitability of Waste for Injection	583
VI	Storage Capacity	585
VII	Cost of Deep Well Injection	585
	References	589
32.	Cathodic Protection Against Corrosion	591
I	Electrochemical Theory	591
II	Potential Series	595
III	Corrosion	599
	References	609
33.	Equipment in Water Pollution	611
I	Pumps	612
II	Valves	617
III	Air Compressors	620
IV	Wastewater Racks and Screens	623
V	Flowmeters	624
VI	Continuous Sampling Equipment	627
	References	628
	Author Index	629
	Subject Index	637
	Microorganism Index	645
