

CONTENTS

	Page
Preface	vii
Use of Mercury in Agriculture and its Relationship to Environmental Pollution	1
The Microdetermination of Mercury and Organomercury Compounds in Environmental Materials	21
Mass Spectra of Some Fungicidal Organomercury Compounds	55
Collection and Determination of Mercury in Air	69
Determination of Trace Levels of mercury in Effluents and Wastewater	77
The Accurate Measurement of Lead in Airborne Particulates	89
A Radiochemical Method for Selective Determination of Traces of Lead	105
Determination of Lead, Cadmium, Copper and Zinc in Biological materials by Anodic Stripping Polarography	111
Determination of Traces of Antimony by flameless Atomic Absorption Spectroscopy	123
Determination of Some Transition Metals by Atomic Absorption Spectroscopy after Extraction with Pyridine-2-Aldehyde-2-Quinolylhydrazone	131
The Determination of Trace Transition Elements in Biological Tissues Using Flameless Atom Reservoir Atomic Absorption	141
Activation Analysis and Applications to Environmental Research	153
