	Page
Preface	v
List of abbreviations	xiii
1. Introduction	1
2. Quantity of Water and Sewage	8
3. Rainfall and Runoff	27
4. Ground Water	64
5. Aqueducts and Water Pipes	96
6. Collection and Distribution of Water	122
7. Pumps and Pumping Stations	169
8. Quality of Water Supplies	204
9. Treatment of Water – Clarification	233
10. Treatment of water – Filtration	264
11. Miscellaneous Water Treatment Methods	296
12. Sewerage – General Considerations	332
13. Amount of Storm Sewage	336
14. Sewer Pipes	346
15. Flow in Sewers	367
16. Sewer Appurtenances	378
17. Design of Sewer Systems	404
18. Sewer Construction	418
19. Maintenance of Sewers	436
20. Characteristics of Sewage	444
21. Sewage Disposal	464
22. Screens and Skimming Tanks	484
23. Sedimentation of Sewage	494
24. Sewer Filtration	517
25. Activated Sludge	547
26. Sludge Treatment and Disposal	572
27. Miscellaneous Sewage Treatment Problems	599
28. Financing and management	614
Appendix	627
Index	637
