

**CONTENTS**

	Page
1. Introduction	1
2. Flow in Pipes and Channels	7
3. Non-Uniform Channel Flow	27
4. Design of Sewerage Systems	51
5. Sewer Construction	80
6. Manhole Chambers and Storm overflows	113
7. Pumping Systems and Inverted Siphons	135
8. Outline of Sewage Treatment	156
9. Preliminary Treatment	176
10. Sedimentation tanks	199
11. Biological oxidation Processes	216
12. Sludge Treatment	253
13. Overall Design of Treatment Works	272
Index	289
