

Contents

Preface	vii
About the Editors	ix
Contributors	xi
Chapter 1 Characteristics of Hazardous Industrial Waste	1
<i>Nazih K. Shamma</i>	
Chapter 2 Soil Remediation	35
<i>Ioannis Paspaliaris, Nymphodora Papassiopi, Anthimos Xenidis, and Yung-Tse Hung</i>	
Chapter 3 Remediation of Soils Contaminated with Metals	87
<i>Nazih K. Shamma</i>	
Chapter 4 Treatment of Wastes from Metal Finishing Industry	139
<i>Nazih K. Shamma and Lawrence K. Wang</i>	
Chapter 5 Leachate Treatment Using Bioremediation	175
<i>Azni Idris, Katayon Saed, and Yung-Tse Hung</i>	
Chapter 6 Remediation of Sites Contaminated by Hazardous Wastes	193
<i>Lawrence K. Wang, Nazih K. Shamma, Ping Wang, and Robert LaFleur</i>	
Chapter 7 Enzymatic Removal of Aqueous Pentachlorophenol	273
<i>Khim Hoong Chu, Eui Yong Kim, and Yung-Tse Hung</i>	
Chapter 8 Remediation of Sites Contaminated by Underground Storage Tank Releases	291
<i>Lawrence K. Wang, Nazih K. Shamma, Ping Wang, and Nicholas L. Clesceri</i>	
Chapter 9 Biological Treatment Processes for Urea and Formaldehyde Containing Wastewater	363
<i>José Luis Campos Gómez, Anuska Mosquera Corral, Ramón Méndez Pampín, and Yung-Tse Hung</i>	
Chapter 10 Hazardous Waste Deep-Well Injection	385
<i>Nazih K. Shamma and Lawrence K. Wang</i>	

Chapter 11	Waste Management in the Pulp and Paper Industry	461
	<i>Nazih K. Shamma</i>	
Chapter 12	Treatment of Nickel-Chromium Plating Waste	517
	<i>Nazih K. Shamma, Lawrence K. Wang, Donald B. Aulenbach,</i> <i>and William A. Selke</i>	
Index	545
