

## CONTENTS

	Page
1. Estimation of Raw Refuse Quantity	1
1.1 Introduction	1
1.2 Preliminary Statistical Considerations	3
1.3 The Selection Process	4
1.4 Systematic and Random Sampling	5
1.5 Correcting for Defaulting	7
1.6 Oversampling	10
1.7 Computer Simulation Model	10
1.8 Computer Simulation Experiments	18
1.9 Seasonality-Number of Vehicles Approach	21
1.10 Seasonality-Multiple Week Sampling Approach	23
1.11 Sample Size Determination	28
1.12 Stratified Sampling for Small Vehicles	32
1.13 Summary	35
Appendix to chapter 1	35
2. Estimation of Waste Composition	39
2.1 Introduction	39
2.2 Sample Size : Basic Considerations for Within-Week Sampling	40
2.3 Computer Sampling Experiments to Test Normality Assumptions	44
2.4 Sample Size with Seasonality	49
2.5 Stratified Sampling for composition Estimation	54
2.6 Sample Weight and sample Size for process Streams	55
2.7 Summary	57
3. Uncertainty Analysis, Decision Trees and Multiattribute Decision-Making	59
3.1 Introduction to Uncertainty Analysis	59
3.2 Introduction to Decision Trees	62
3.3 Uncertainty in Decision Trees	67
3.4 The Stochastic Decision Tree	69
3.5 Nonfinite Number of alternatives	75
3.6 Multiattribute Decision-Making	75
3.7 Comments on Linear Decision Models	86
3.8 Summary	87
Appendix to Chapter 3	88
4. The Utilization of Expert Judgment	91
4.1 Introduction	91
4.2 Criteria for Evaluating Experts	92
4.3 Eliciting individual Judgment	100
4.4 The Combination of Expert Judgment : Mathematical Approaches	105
4.5 The Combination of Probability Distributions : Mathematical Approaches	107
4.6 The Combination of Expert Judgment : Behavioral Approaches	113
4.7 A Comparison of Consensus Techniques	117
4.8 Summary	122
5. Forecasting	125
5.1 Introduction	125
5.2 Trend Extrapolation	128
5.3 Estimating Future Confidence	130
5.4 Growth Curves	131
5.5 A Forecasting Methodology	132

5.6	An Example of the Model – Initial Data and Assumptions	134
5.7	Forecasting Events	140
5.8	Mathematical Formulation of Cross-Impact Approach	142
5.9	Computer Program	145
5.10	Summary	147
	Appendix to chapter 5	148
	Index	151
