

## CONTENT

		Page
1.	Summary	1
2.	Introduction	8
3.	Overview	9
4.	Wet Oxidation	12
	Wet Air Oxidation- ZIMPRO, Inc.	13
	Catalyzed Wet Oxidation – IT Corporation	22
	Supercritical Fluid Oxidation – MODAR, Inc	22
	High-Temperature Wet oxidation-Methods Engineering, Inc.	30
5.	Chemical Transformation	34
	Aqueous Phase Alkaline Destruction of Halogenated Organic Wastes-Battelle – Northwest	35
	Catalytic Dehalogenation of Hazardous Waste-GARD Division, Chamberlain Manufacturing Co	38
6.	Molten Glass	44
	Joule-Heated Glass Melter-Battelle-Northwest	45
	Electromelt Pyro-Converter-Penberthy Electromelt International	48
7.	Fluidized Bed Incineration	55
	Multisolid Fluidized Bed-Battelle	56
	Circulating Bed Waste Incineration – GA Technologies	60
	Low-Temperature Fluidized Bed – Waste-Tech Services, Inc.	66
8.	Pyrolysis	69
	Pyrolytic Decomposition-Midland –Ross Corporation	70
	High – Temperature Pyrolysis with Oxygen – Russell and Azon	77
9.	Molten Salt	81
	Moltel Salt Destructon-Rockwell International	82
10.	Advanced Incinerators	87
	CONSEROTHERM Rotary Kiln Oxidizer – Industronics, Inc.	88
	Fast rotary Reactor – PEDCo Technology Corporation	93
	“CYCLIN” Cyclone Incinerator – IGT	98
11.	Electric Reactor	101
	High-temperature Fluid Wall Reactor – Thagard Research corp	102
	Advanced Electric Reactor – Huber	106
12.	Plasma Systems	116
	Pyroplasma-Pyrolysis Systems, Inc.	117
	Plasma Temperature Incineration – Applied Energetics, Inc.	122
