

CONTENTS

	Page
Section 1 : General Considerations	
1. Implementation of RCRA and Superfund by the U.S. EPA – the State’s Perspective	1
2. Conflicts and Hazardous Waste Management – The Environmentalist’s Viewpoint	9
3. Public Participation in Ohio EPA’s Solid and Hazardous Waste Program	19
4. Health and Safety Considerations for Hazardous Waste Workers	25
5. Hazardous Waste Management – An Industry Perspective	35
6. The partnership Approach to Hazardous Waste Management	41
7. Solid Waste Facility Approach Siting – Community Aspects and Incentives	45
Section 2 : Impact on Groundwater	
8. Groundwater Contamination Control and Treatment, Rocky Mountain Arsenal, Colorado	65
9. Statistical Evaluation of Hydraulic Conductivity Data for Waste Disposal Sites	81
10. Groundwater Monitoring Systems – Only as Good as the Weakest Link	105
11. Problems in Assessing Organics Contamination in Groundwater	119
12. Private Well Sampling in Vicinity of Re-Solve, Inc., Hazardous Waste Site	129
Section 3 : Treatment	
13. Liquid Hazardous Waste Treatment Design	141
14. In Situ Stabilization and Closure of an Oily Sludge Lagoon	155
15. Hazardous Waste Reduction Through In-Process controls, Process Substitutions, and Recovery / Recycling Techniques	171
Section 4 : Waste Recycle	
16. New York State Industrial materials Recycling Program	195
17. The Role of a Waste Exchange in Industrial Waste Management – Development of the Northeast Industrial Waste Exchange	209
18. 3P : Pollution Prevention Pays – A 3M Success Story	215
19. European Network of Waste Exchange	223
Section 5 : Land Disposal	
20. Hazardous Waste Land Disposal Regulations – An Environmentalist perspective	227
21. Influence of Hazardous and Toxic Wastes on the Engineering Behavior of Soils	237
22. Site Selection and Design Considerations for Hazardous Waste Land Disposal Facilities	265
23. EPA’s Land Disposal Regulations – Waste Disposal Industry’s Perspective	283
Section 6 : Disposal Site Cleanup	
24. Waterway Contamination – An Assessment of Cleanup Priorities	289
25. Cleanup of a Vinylidene Chloride and Phenol Spill	297
26. Case History – Remedial Investigation Re-Solve, Inc. Hazardous Waste Site	307
27. Waste Stabilization Basin Discharge Elimination and Remediation – A Case Study	319
28. Site Safety and Sampling Plans – the First Step in Investigating Abandoned Hazardous Waste Disposal Sites	327
29. Remedial Investigation and Feasibility Study, Tacoma Water supply Wells, Commencement Bay Area, Tacoma, Washington	335
30. Soil Investigation at the Re-solve, Inc., Hazardous Waste Site	353
Section 7 : Risk Assessment	
31. Environmental Risk Assessment	367
Section 8 : Legal Considerations	
32. Manufacturer’s Warranties on Hazardous Waste Disposal Equipment	373
33. Federal and State Enforcement of Hazardous Waste Laws	381

34. Generator Liability Under Superfund	387
35. Environmental Law and Contractor Liability	405
Index	415
