

CONTENTS

	Page
Polymer with Controlled Lifetimes	1
Delayed Action Photo-Activator for the Degradation of Packaging Polymers	27
The Photoactivated Degradation of Polyolefins	45
The Biodegradability of Synthetic Polymers	61
Effluents from the Municipal Incineration of Plastics	81
The Auto-ignition of Multicomponent Fiber Systems	93
Thermal Analysis of Irradiated Poly(Vinyl Chloride)	109
Recycling Poly (tetrafluoroethylene)	121
An Industry View of Plastics and the Environment	139
The Plastics Issue	155
The Federal Approach to Recycling of Polymers	169
Who's On The Clean-Up Crew?	181
Panel Discussion	185
Appendix	199
Index	201
