	PAGE
FOREWORD	v
ACKNOWLEDGEMENTS	vii
INTRODUCTORY SECTIONS ON PRINCIPLES OF AIR SAMPLING	
Air Sampling and Analysis for Contaminants in Work Places - Leslie Silverman, Sc.D.	A-1-1
Aerosol Sampling and the Importance of Particle Size - Robert N. Mitchell	A-2-1
Home-Assembled Instruments - Alfred N. Setterlind	A-3-1
Calibration of Air Sampling Instruments - Paul E. Caplan	A-4-1
Factors Affecting the Selection of an Air Sampling Method - Victor E. Lavetter	A-5-1
Intramural Sampling of Airborne Microorganisms - Edward L. Fincher, Ph.D. and G. F. Mallison	A-6-1
TECHNICAL DISCUSSION ON SPECIFIC TYPES OF INSTRUMENTS	
Air Movers - Grant H. Vance	B-1-1
Filter Holders and Filter Media - Morton Lippman	B-2-1
Inertial Collectors - Howard L. Kusnetz	B-3-1
Electrostatic Precipitators - Morton Lippman	B-4-1
Thermal Precipitators - J. R. Hodgkinson, Ph.D.	B-5-1
Light Scattering Instruments for Measuring Particulate Air Pollution - J. R. Hodgkinson, Ph.D.	B-6-1
Gas and Vapor Sample Collectors - Grant H. Vance	B-7-1
Direct Reading Colorimetric Indicators - Bernard E. Saltzman, Ph.D.	B-8-1
Direct Reading Physical Instruments - John S. Nader	B-9-1
INDIVIDUAL INSTRUMENT DESCRIPTIONS	
Air Movers - Grant H. Vance	B-1-5
Filter Holders and Filter Media - Robert L. Mitchell	B-2-10
Inertial Collectors - John T. Collins	B-3-9
Electrostatic Precipitators - Morton Lippman	B-4-16
Thermal Precipitators - J. R. Hodgkinson, Ph.D.	B-5-9
Light Scattering Instruments - J. R. Hodgkinson, Ph.D.	B-6-12
Gas and Vapor Sample Collectors - Irving H. Davis	B-7-5
Direct Reading Colorimetric Indicators - Bernard E. Saltzman, Ph.D.	B-8-12
Direct Reading Physical Instruments - John M. Blankenhorn	B-9-10
Miscellaneous Air Sampling Instruments - Paul E. Caplan	B-10-1
APPENDIX	C-1-1
DESCRIPTION OF TABLE	
Conversion Factors	C-1-2
Comparison of Comfort Limits and Threshold Limit Values	C-1-3
Physical Constants of Selected Materials	C-1-4
Table of Atomic Weights, Number and Symbols	C-1-6
ACGIH Threshold Limit Values	C-1-7
