Preface	ix
1. Introduction to Air Pollution	1
2. The Air Pollution Problem	7
3. Effects of Air Pollutants on Man	21
4. Effects of Air Pollutants on Animals	57
5. Effects of Air Pollutants on Vegetation	69
6. Effects of Air Pollutants on Non-Living Materials	85
7. Atmospheric Sampling and Analysis	95
8. Source Sampling and Analysis	131
9. Source – Emission Inventories	149
10. Air Pollution Control of Fixed Sources	175
11. Air Pollution Control of Mobile Sources	207
12. Meteorology Related to Air Pollution	223
13. Air Resources Management Program	253
Index	278
