1. Introduction	1
2. The Over-all Waste Picture	12
3. Effects of Wastes on Streams	24
4. Effects of Industrial Wastes on Sewerage Systems	35
5. Criteria of Pollution : Physical Properties	45
6. Criteria of Pollution : Chemical Properties	55
7. Criteria of Pollution : Organic and Biological Properties	79
8. Pretreatment of Wastes	100
9. Physical Treatment : Sedimentation	118
10. Physical Treatment : Filtration	147
11. Physical Treatment : Heat Transfer Operations	160
12. Chemical Treatment : pH Adjustment	176
13. Chemical Treatment : oxidation and Reduction	201
14. Chemical Treatment : Coagulation and Chemical Reaction	224
15. Chemical Treatment : Adsorption and Ion Exchange	235
16. Miscellaneous Treatment Methods	246
17. Aerobic Biological Treatment	255
18. Aerobic Biological Treatment : Biological Filtration	265
19. Aerobic Biological Treatment : Activated Sludge	299
20. Aerobic Biological Treatment : Lagoons	317
21. Anaerobic Biological Treatment	325
22. Ultimate Disposal of Wastes	340
23. Industrial Waste Disposal Programs	359
24. Wastes from Specific Industries	371
