Chapter I	Introduction	2
Chapter II	General Outline of the Problem	5
Chapter III	Types and Amount of Industrial Solid Toxic Wastes	9
Chapter IV	Present Methods of Toxic Solid Waste Disposal	14
Chapter V	Instances of Water Pollution from Tipped Toxic Wastes	17
Chapter VI	Other Risks of Tipping	21
Chapter VII	Other Methods of Disposal	23
Chapter VIII	Present Organisation of Solid Toxic Waste Disposal	25
Chapter IX	The Law Relating to Solid Toxic Wastes	30
Chapter X	The Travel of Pollution from Tip to Aquifer or River	38
Chapter XI	Percolation from House Refuse	44
Chapter XII	Operation of Tips Receiving Toxic Wastes to Reduce Pollution from Them	46
Chapter XIII	Pre-Treatment of Solid Toxic Wastes	51
Chapter XIV	Sludges from Pre-treatment of Liquid Toxic Wastes	54
Chapter XV	The Disposal of Aqueous Toxic Wastes to Tips and in Other Ways not Involving Methods Covered by Special Legislation	56
Chapter XVI	The Special Problem of Oily and Tarry Wastes	60
Chapter XVII	Disposal of Toxic Wastes with Sewage Sludge	62
Chapter XVIII	Disposal of Toxic Wastes by Incineration	63
Chapter XIX	Permanent Storage of Wastes	67
Chapter XX	Disposal to Sea	68
Chapter XXI	Disposal of Very Small Amounts of Solid Toxic Wastes	71
Chapter XXII	Investigation and Research	73
Chapter XXIII	A Discussion on Safety and Economics	76
Chapter XXIV	Ways of Improving Present Technical Practice in the Interest of Safety	80
Chapter XXV	The Authorising of Toxic Waste Disposal	84
Chapter XXVI	Legal, Organisational and Administrative Requirements	91
Chapter XXVII	Summary, Conclusions and Recommendations	102
Appendix	List of Bodies Submitting Written and Oral Evidence	107
