Introduction	1
Disposal of Industrial Radioactive Waste Waters at Hanford	3
Discussion	19
Determination of Radioactive Materials in Water	22
Discussion	31
Utilization of Cooling Towers in Conservation and Pollution Control	33
Discussion	38
Improvements in Water Treatment for Once-Through Reactor Cooling	40
Discussion	46
Disposal of Oil-Field Brines in the Central Valley of California	48
Discussion	56
Effect of Industrial Wastes on Water for Irrigation use	58
Discussion	64
Operation of Batch-Type and Continuous Electric Membrane Demineralizers	67
Discussion	84
Solar Distillation of Saline Water with Particular Regard to Materials Problems	86
