

CONTENTS

HYDROLOGICAL MODELLING

Rainfall-runoff Modelling by the FDTF Method: Testing and Validation
by Generated Data
J.Y. RODRIGUEZ, J. NALBANTIS, Ch. OBLED

Semi-global Hydrological Modelling by Coupled Simulation of the Variations of
Water Storage in the Unsaturated Zone and of the Piezometric Level Evolution
D. THIERY

ENVIRONMENTAL MODELLING

Water Quality Simulation in Sidi Mohamed Ben Abdellah Reservoir Using
Mathematical Models 13
H. ABOUZAIID, A. FOURLANE

Predicting the Impact of Controlled Infiltration of Urban Waste Water with
Micro-Computing Techniques 17
M. MAKHOUKH, A. NGHIRA, Ph. JEAN, J.P. SAUTY

Forecasting the Evolution of Nitrate Contents in Spring Water Using a Lumped
Hydrologic Model 21
D. THIERY, J.-J. SEGUIN

An Effective Model of Sediment Deposition in Rivers 29
G. GUARISO, R. RANZI, S. VALENTI

Systems Analysis of Water Contamination and Incentive Strategy Controlling
Contaminative Problem 35
JING YUANWEI, ZHENG YI, ZHANG SIYING

Management and Regulation Policies for Fish Stocks Application to the River Nile
in Egypt 41
M.G. DARWISH

RESERVOIRS OPERATION

Systems Analysis Approach to Modelling of Surface and Ground Water Resources 45
R.J. MOORE

Expert Systems in Water Resources 51
G. GUARISO

Application of Principal-component Analysis to Long-term Reservoir Management 61
M. SAAD, A. TURGEON

Multicriteria Reservoir Control: Experience on an Italian Lake 65
C. GANDOLFI, G. GUARISO, S. RINALDI

Kalman Filtering and Control of Water Level in an Interconnected Multi-reservoir Power System H. TAMURA, T. KUTSUMI, H. NAKAMURA, R. SEKI, K. TANABE, T. OZAKI	73
Multipurpose Reservoir Management Optimization Moulay Youssef Dam (Morocco), A Case Study A. BELKHEIRI, F. EL ALAM, N. BOUTAYEB, J. BERTRAND, C. FIGUÈRES	79
Nonlinear Prediction of the Water Flow in an Interconnected Multi-reservoir Power System T. OZAKI, L.K. HOTTA, H. NAKAMURA, R. SEKI, H. TAMURA, K. TANABE, H. AKAIKE	87
 SYSTEMS CONTROL	
Tridimensional Optimization of Sewerage and Stormwater Networks D.J.F. PEREIRA, A.S. CÂMARA	97
Valley Hydraulic Stations (P.H.V.) P. GERMAIN, J. LECOUTURIER	103
Mathematical Modelling Applied to Control of Wastewater Treatment Stations J.Q. LEVY	109
 DECISION AID SYSTEMS	
Systems Analysis and Water Resources Planning J. KINDLER	115
Systemic Approach to Water Resources Decision Making J.E. DA SILVA	123
Multiannual Water Resources Planning G. CESARI, A. GABOS	129
Methodological Approach for the Moulouya Basin Water Plan N. BOUTAYEB, D. NORMAND	133
An Analytical Decision-making Model on Water Policy and Management in Beijing, China XIE MEI, M. ROSSO, G.L. HAN, G.S. NIE	137
Effects of Reclamation Plans on Water Shortages and Flood Protection A. NARDINI, R. SONCINI-SESSA, J. ZULETA	143
Modelling of an Interzonal Multipurpose Water Management System in Morocco M. JELLALI, T. ELAPTI, G. SIMEONI, G. MONDADA	146
Loir Valley Development Project B. CORBEL, J.L. ROY, J. LEFEVRE	
Modelling and Simulation of the Operation of a Large Hydraulic System in Morocco - the Moulouya Basin M. CHENNE, J. BARNIER, B. MOHARIB, S. ABBACH	163

Contents

xi

Global Water Management Model of Surface and Groundwater Resources of the Souss Plain in Morocco M. GEANAH, A. MEILHAC, G.P. SIMEONI, P. SULSER	171
The Governing Module for the Water Management Informative System J. BLASZCZYŃSKI, J. FILIMOWSKI, D. KUBACKA, E. ŁASUT	177
Author Index	183
Keyword Index	185
