

Contents

Technology and Environment: An Overview	1
<i>Jesse H. Ausubel, Robert A. Frosch, and Robert Herman</i>	

1. FRAMEWORKS FOR ANALYSIS

Industrial Metabolism	23
<i>Robert U. Ayres</i>	
Dematerialization	50
<i>Robert Herman, Siamak A. Ardekani, and Jesse H. Ausubel</i>	
Regularities in Technological Development: An Environmental View	70
<i>Jesse H. Ausubel</i>	

2. THE PROMISE OF TECHNOLOGICAL SOLUTIONS

★ Meeting the Near-Term Challenge for Power Plants	95
<i>Richard E. Balzhiser</i>	
Advanced Fossil Fuel Systems and Beyond	114
<i>Thomas H. Lee</i>	
Protecting the Ozone Layer: A Perspective from Industry	137
<i>Joseph P. Glas</i>	

3. SOCIAL AND INSTITUTIONAL ASPECTS

The Rise and Fall of Environmental Expertise..... 159
Victoria J. Tschinkel

Environmental Issues: Implications for Engineering Design
and Education..... 167
Sheldon K. Friedlander

Engineering Our Way Out of Endless Environmental Crises .. 182
Walter R. Lynn

The Paradox of Technological Development 192
Paul E. Gray
