890334 Optimizing RIM Mold Design and Processing through the Use of Simulation Models	1
890335 Further Advancements in Thermoplastic Elastomers for Fascia and Exterior Trim Applications	11
890337 Polyurea RIM for Improved Fascia Productivity	21
890338 High Performance RIM Fascia	33
890339 H-SMC Bumper Beam Endured 5 mph Impact	39
890340 Hybrid Metal-Composite Bumper Beam – Design and Analysis	47
890341 An Automotive Bumper Bar Using Liquid Composite Molding	65
890588 New Developments in Materials and Fabrication Processes for Automotive Interior Trim Skin Materials	73
890590 The use of Expanded Bead Foam Materials for Improved Safety in Automotive Interior Components	83
890591 Correlations of Accelerated and Outdoor Weathering of an ASA Polymer System	93
890592 New High Heat Stable, Low Gloss, Automotive Interior Trim Resins Having Excellent Processability	103
890693 A New Generation of polyurea Chemistry for Automotive Applications	115
890694 Polyurea RIM – The Choice for Automotive Body Panel Applications	125
890695 A Proper Choice for Large Class “A” Body Panels	133
890696 Advanced in Polyurea RIM for Automotive Applications	139
890697 Thermoplastic Vertical Body Panels – The Future is Now	145
890698 RIM – A Process for the 90’s	149
890699 Gas Assisted Injection Molding – The New Thermoplastic Molding Technology for Exterior Body Panels	155
890766 FIBRIT Wood Fiber materials – Product and Performance	163
890767 Quality Function Deployment as Applied to the Formulation of Polyurethane Foams for Instrument Panels	177
890768 Statistical Analysis Applied to structural Attachment Bosses	185
890769 Use of statistical Techniques for Impact-Modified Polycarbonate Applications	191
890770 Blow Molding Versus Injection Molding for Automotive Instrument Panel Substrates and Components	199
890771 Statistical Decision Making in FMVSS Testing	207
890773 Statistical Methods Needed to Achieve New Quality Levels and To Sustain the Improvement	211
890336 Overview of the North American Car market For Bumper Applications	227
890589 A Survey of Vehicular Side Wall Constructions	235
890772 Improvements Needed to Elevate the State of the Art to Meet Evolving Industry Quality Standards	241
