Preface	v
Introduction	ix
1. The Language of Electricity	1
2. The Storage Battery	29
3. Battery Maintenance	48
4. Cranking-motor Fundamentals	65
5. Cranking-motor Service	100
6. Cranking-motor Service (Continued)	107
7. Generator Fundamentals	131
8. Theory of Regulator Operation	146
9. Quick Check of Generator-regulator System	163
10. Checking and Adjusting Auto-Lite Regulators	174
11. Checking and Adjusting Delco-Remy Regulators	187
12. Ford Regulators	216
13. Generator Service	221
14. Generator Service (Continued)	226
15. Horns	236
16. The Gasoline Engine and Fuel Requirements	240
17. The Ignition System	269
18. Ignition-testing Instruments	269
19. Trouble-Shooting the Ignition System	277
20. Ignition Maintenance	281
21. Switches	292
22. Indicating Devices	299
23. Headlights	303
24. Accessories	307
25. Periodic Inspection of the Electric System	319
Appendix	323
Index	325
