

## CONTENT

	Page
Foreword	vii
Introduction	ix
Part I	
Calculations, Science and Drawing	
Units	3
Mensuration	3
Geosuration	5
Trigonometry	7
Speed and Acceleration	18
Mass and Weight	19
Specific Gravity	19
Acceleration due to Gravity	20
Density	20
Force	23
Work	23
Power	23
Torque	23
Work done by Torque	24
Principle of Moments	24
Centre of Gravity	25
Couple	26
Inertia Force	30
Centrifugal Force	30
Mean Piston Speed	30
Friction Force	31
Pressure	31
Atmospheric Pressure	32
Gauge and Absolute Pressure	32
Stress	32
Temperature	37
Conversion of Temperature	38
Absolute Scale of Temperature	39
General Gas Law	39
Unit of Heat	40
Specific Heat	40
Quantity of Heat	41
Water Equivalent	41
Latent Heat	41
Transfer of Heat	42
Conversion of Energy	42
Mechanical Equivalent of Heat	43
Coefficient of Linear Expansion	43
Orthographic Projection	46
Materials	50
Part II	
Motor Vehicle Technology	
1. The Chassis	59
2. The Front Wheel Assembly	71
3. The Engine	94
4. The Lubrication System	128

5.	The cooling System	138
6.	Fuel	149
7.	The Fuel system	154
8.	Carburation	157
9.	The Electrical System	179
10.	The Ignition System	184
11.	Charging and Starting Systems	192
12.	The Clutch	204
13.	The Fluid Flywheel	212
14.	The Gearbox	214
15.	Universal Joints	233
16.	The Rear Axle	237
17.	The Braking System	252
18.	Compression-Ignition Engines	276
19.	Safety in the Motor-vehicle Workshop	289
	Index	294
