

Contents

Dedication.....	v
Preface	vii
Chapter 1.....	1
Introduction.....	1
1.1. Towards Conscious Robots.....	1
1.2. The Structure of This Book.....	3
Chapter 2.....	5
The Problem of Consciousness.....	5
2.1. Mind and Consciousness.....	5
2.2. The Apparent Immateriality of the Mind.....	6
2.3. Cartesian Dualism.....	7
2.4. Property Dualism.....	10
2.5. The Identity Theory.....	11
2.6. The Real Problem of Consciousness.....	12
Chapter 3.....	15
Consciousness and Subjective Experience.....	15
3.1. Theories of Consciousness.....	15
3.2. The Subjective Experience.....	20
3.3. The Internal Appearance of Neural Activity.....	21
Chapter 4.....	25
Perception and Qualia.....	25
4.1. Perception and Recognition.....	25
4.1.1. What is a Percept?.....	25
4.1.2. Is Perception the Same as Recognition?.....	27
4.2. Qualia.....	30
4.2.1. What Are Qualia?.....	30
4.2.2. The Privacy of Qualia.....	33
4.2.3. No Qualia, No Percepts.....	35
4.2.4. Different Qualities of Qualia.....	35
4.2.5. Amodal Qualia.....	37
4.2.6. Externalization, the Apparent Location of Percepts.....	41

Chapter 5.....	47
From Perception to Consciousness	47
5.1. No Percepts – No Consciousness	47
5.2. Attention and Consciousness.....	48
5.3. The Difference Between Conscious and Non-Conscious Perception	50
5.4. Information Integration and Consciousness	52
5.5. What is Consciousness?	53
Chapter 6.....	55
Emotions and Consciousness	55
6.1. Emotions and Feelings	55
6.2. The Qualia of Emotions	56
6.3. The System Reactions Theory of Emotions (SRTE).....	58
6.4. Emotions and Motivation	59
6.5. Free Will.....	60
6.6. Decision Making	61
Chapter 7.....	63
Inner Speech and Consciousness.....	63
7.1. Natural Language	63
7.2. Consciousness and Inner Speech.....	66
7.3. Conscious Perception of Inner Speech	67
Chapter 8.....	73
Qualia and Machine Consciousness	73
8.1. Human Consciousness vs. Machine Consciousness	73
8.2. Preconditions for Machine Qualia.....	74
Chapter 9.....	79
Testing Consciousness	79
9.1. Requirements for Consciousness Tests	79
9.2. Tests for Consciousness	82
9.2.1. The Turing Test.....	82
9.2.2. Picture Understanding Test	83
9.2.3. The Cross-Examination Test	84
9.3. Tests for Self-Consciousness.....	85
9.3.1. Self-Consciousness.....	85
9.3.2. The Mirror Test	86
9.3.3. The Name Test.....	87
9.3.4. The Ownership Test	87
9.3.5. The Cross-Examination Test	88
9.4. Requirements and Tests for Machine Consciousness in Literature	88
9.4.1. Aleksander’s Axioms	88
9.4.2. The ConsScale.....	89

Chapter 10.....	91
Artificial Conscious Cognition	91
10.1. Which Model for Artificial Cognition?.....	91
10.2. Sub-symbolic vs. Symbolic Information Processing.....	93
10.3. What Is a Cognitive Architecture?	96
Chapter 11.....	99
Associative Information Processing.....	99
11.1. What Is Associative Information Processing?.....	99
11.2. Basic Associative Processes.....	100
11.2.1. Pavlovian Conditioning	100
11.2.2. Hebbian Learning	102
11.2.3. Autoassociation and Heteroassociation.....	103
11.3. The Representation of Information	104
11.4. Distributed Signal Representations	105
Chapter 12.....	107
Neural Realization of Associative Processing.....	107
12.1. Spiking Neurons or Block Signal Neurons?.....	107
12.2. Associative Neurons and Synapses	109
12.3. Correlative Learning	114
12.4. The Associative Neuron as a Logic Element.....	117
12.5. Associative Neuron Groups	119
12.5.1. The Operation of an Associative Neuron Group.....	119
12.5.2. The Association of Vectors with Vectors	121
12.5.3. Autoassociative Memory	122
12.5.4. Temporal Sequences.....	122
Chapter 13.....	125
Designing a Cognitive Perception System	125
13.1. Requirements for Cognitive Perception	125
13.2. The Perception/Response Feedback Loop.....	128
13.2.1. The Basic Principle.....	128
13.2.2. The Realization of Priming	129
13.2.3. Match, Mismatch and Novelty Detection	130
13.2.4. Sensory Attention in the Perception/Response Feedback Loop	132
13.2.5. The Realization of Visual Searching.....	133
13.2.6. Predictive Perception	134
13.2.7. Conscious Introspection of Imaginations	135
Chapter 14.....	139
Examples of Perception/Response Feedback Loops	139
14.1. The Auditory Perception/Response Feedback Loop	139
14.1.1. The Purpose	139
14.1.2. Auditory Pre-Processes.....	139
14.1.3. The Outline	142

14.2. The Visual Perception/Response Feedback Loop	144
14.2.1. The Purpose	144
14.2.2. Visual Pre-Processes	145
14.2.3. The Outline	146
14.3. The Touch Perception/Response Feedback Loop.....	148
Chapter 15.....	151
The Transition to Symbolic Processing.....	151
15.1. From Distributed Signals to Symbols.....	151
15.2. Requirements for a Natural Language.....	151
15.3. Association of Meaning	153
Chapter 16.....	155
Information Integration with Multiple Modules.....	155
16.1. Cooperation and Interaction of Multiple Modules	155
16.2. Sensorimotor Integration.....	157
16.3. Feedback Control Loops	158
16.4. Hierarchical Control Loops	160
Chapter 17.....	163
Emotional Significance of Percepts	163
17.1. The Significance of Percepts.....	163
17.2. Emotional Evaluation of Percepts	164
Chapter 18.....	167
The Outline of the Haikonen Cognitive Architecture (HCA).....	167
18.1. General Overview	167
18.2. The Block Diagram of HCA	169
18.3. Control, Motivation and Drivers	172
18.4. Information Integration, Coalitions and Consciousness	172
Chapter 19.....	175
Mind Reading Applications	175
19.1. Mind Reading Possible?.....	175
19.2. The principle of the Imaging of Inner Imagery	176
19.3. The Perception/Response Feedback Loop in the Imaging of Inner Imagery	179
19.4. Inner Speech and Unvoiced Speech	182
19.5. Silent Speech Detection with the Perception/Response Loop.....	182
Chapter 20.....	185
The Comparison of Some Cognitive Architectures.....	185
20.1. Introduction.....	185
20.2. Baars Global Workspace Architecture	186
20.2.1. Baars Concept of Consciousness	186
20.2.2. Baars Model.....	187
20.2.3. What Is Explained by the Baars Model.....	190
20.2.4. What Is Not Explained by the Baars Model.....	190

20.3.	Shanahan Global Workspace Architecture	191
20.3.1.	Shanahan Concept of Consciousness.....	191
20.3.2.	Shanahan Model.....	192
20.3.3.	What Is Explained by the Shanahan Model.....	194
20.3.4.	What Is Not Explained by the Shanahan Model.....	195
20.4.	Haikonen Cognitive Architecture	196
20.4.1.	Haikonen Concept of Consciousness.....	196
20.4.2.	Haikonen Model.....	197
20.4.3.	What Is Explained by the Haikonen Model.....	198
20.5.	Baars, Shanahan and Haikonen Architectures Compared.....	200
Chapter 21	203
Example:	An Experimental Robot with the HCA	203
21.1.	Purpose and Design Principles	203
21.2.	Architecture	204
21.3.	The Auditory Module	206
21.3.1.	The Auditory Perception/Response Feedback Loop.....	206
21.3.2.	Speech Recognition.....	207
21.3.3.	Speech Production.....	207
21.4.	The Visual Module	208
21.4.1.	Visual Perception/Response Feedback Loops	208
21.4.2.	Object Recognition.....	210
21.4.3.	Direction Detection	210
21.4.4.	The Selection and Searching of a Target.....	212
21.5.	The Emotional Module.....	212
21.5.1.	Pain and Pleasure	212
21.5.2.	Non-Events.....	213
21.5.3.	Emotional Significance	213
21.5.4.	Self-Concept.....	214
21.6.	The Gripper Module	215
21.7.	The Wheel Drive Module	217
21.8.	Self-Talk.....	218
21.9.	Cross-Associative Information Integration.....	220
21.9.1.	The Verbal-Corporal Teaching Experiment	220
21.10.	Consciousness in the XCR-1	221
Chapter 22	225
Concluding Notes	225
22.1.	Consciousness Explained.....	225
22.2.	The Conclusion.....	228
Bibliography	229
Index	235
