Preface	v
1. Automation – A State of Mind	1
2. Economic Feasibility	6
3. How to Get started	14
4. First Steps into a specific Project	22
5. What Kind of Machine do you want?	37
6. Invention	47
7. Modelling – the Expression of Invention	62
8. Building a Model	68
9. Engineering	79
10. Design	90
11. The design phase of a specific Project	97
12. Building the automatic machine	118
13. Debugging	129
14. The run-in period	142
