	Page
1. Soils and Plant Growth	1
2. Physical Properties of Soil	13
3. Soil Water	39
4. Weathering and Soil Formation	59
5. Soil Classification and Soil Survey	95
6. Soil and Water Conservation	125
7. Colloidal Properties of Soil	149
8. Soil Reaction and Buffering	171
9. Acid Soils	181
10. Saline and Alkali Soils	197
11. Soil Organic Matter	215
12. Biological Properties of Soil	233
13. Manures, Compost, Green manures, Sawdust and Sewage	253
14. Plant Nutrition	271
15. Fertilisers and their Characteristics	295
16. Fertilisers and their Use	317
17. Soil Fertility Evaluation	355
18. Soil-Fertiliser Problem of Developing Countries	383
