I Introduction	1
PART I Inorganic Insecticides	
II The Arsenicals	11
III Lead Arsenate	28
IV Fluorine Compounds and Miscellaneous Inorganic Insecticides	42
PART II Synthetic Organic Insecticides	
V DDT, Hexachlorocyclohexane, and Chlordane	57
VI Other synthetic Organic Insecticides	89
VII Fumigants	108
PART III Natural Organic Insecticides	
VIII Insecticides Derived From Plants, Nicotine	129
IX Pyrethrum	144
X Rotenone and Rotenoids	159
XI Miscellaneous Insecticides Derived From Plants	180
XII The Oils	189
PART IV Fungicides	
XIII Copper Compounds	211
XIV Sulfur and Inorganic sulfur Compounds	229
XV Mercury Compounds and Miscellaneous Inorganic Fungicides	250
XVI Organic Fungicides	259
PART V Spray Supplements and Residue Removal	
XVII Wetting, Spreading and Emulsifying Agents	277
XVIII Spray Residue Removal	293
PART VI Herbicides	
XIX Herbicides	305
PART VII Analytical Methods	
XX Macro Methods	323
XXI Micro methods	364
