Preface	vii
Abbreviations of References	xiii
I The Insect and Its Hosts	1
II Methods of Insect Control	20
III Modern Insecticides	38
IV Effectiveness of Insecticides	56
V Formulation and Application	64
VI Deposits and Residues	76
VII Resistance of Insects to Chemicals	105
VIII Acaricidal Compounds	117
IX Organochlorine Compounds	137
X Organophosphorus Compounds	152
XI Petroleum Products	173
XII Botanical Compounds	183
XIII Fumigant Compounds	210
XIV Soil-Treatment Compounds	225
XV Other Insecticidal Compounds	236
XVI Attractant and Repellent Compounds	242
APPENDIX	
A Approximate Mammalian Toxicities of Insecticidal and Acaricidal Compounds Mentioned in Text, in Terms of LD ₅₀ Values	256
B Originators and Some Sources of Modern Insecticides and Acaricides	260
C Scientific Names of Pests Mentioned in Text	265
Subject Index	273
