Preface	xi
Insecticide Resistance Action Committee	xiii
1. Biomolecular Basis for Insecticide Resistance : Classification and Comparisons	1
2. Characterization of a cytochrome P450 Responsible for Pyrethroid Resistance in the Housefly	16
3. Expression of the Cytochrome P450 Gene CYP6A1 in the Housefly, <i>Musca domestica</i>	31
4. Regulation of the Gene for <i>Drosophila</i> P450 – B1, a P450 Isozyme Associated with Insecticide Resistance	41
5. Evolution of Glutathione S-Transferases Associated with Insecticide Resistance in <i>Drosophila</i>	53
6. Mechanisms of <i>kdr</i> and <i>super-kdr</i> Resistance	71
7. Cloning of a Locus Associated with Cyclodiene Resistance in <i>Drosophila</i> : A Model System in a Model Insect	90
8. Molecular Analysis of Methoprene-Tolerant, a Gene in <i>Drosophila</i> Involved in Resistance to Juvenile Hormone Analog Insect Growth Regulators	99
LEPIDOPTERAN MECHANISMS TO RESIST TOXICANTS	
9. Cytochrome P450 Monooxygenase Genes in Oligophagous Lepidoptera	114
10. Effects of the Endophyte-Associated Alkaloid Peramine on Southern Armyworm Microsomal cytochrome P450	125
11. Resistance to Plant Allelochemicals in <i>Heliothis virescens</i> (Fabricius)	137
12. Resistance in the Diamondback Moth to Pyrethroids and Benzoylphenylureas	149
13. Insecticide Resistance in the Tufted Apple Bud Moth, a Polyphagous Lepidopteran	168
14. Plant-Allelochemical-Adapted Glutathione Transferases in Lepidoptera	174
15. Mechanism of Insect Resistance to <i>Bacillus thuringiensis</i> in <i>Plodia interpunctella</i> and <i>Plutella xylostella</i>	191
RESISTANCE MECHANISMS OF OTHER INSECT ORDERS	
16. <i>Tribolium</i> as a Model Insect for Study of Resistance Mechanisms	202
17. Esterase Genes Conferring Insecticide Resistance in Aphids	209
18. Insecticide Resistance mechanisms in the German Cockroach, <i>Blattella germanica</i> (L.)	218
19. Insect Resistance to Benzoylphenylureas and Other Insect Growth Regulators : Mechanisms and Countermeasures	231
20. Mechanisms of Abamectin Resistance in the Colorado Potato Beetle	247
21. Detoxification of Mycotoxins by Insects	264
22. Interactions of N-Alkylamides with Voltage-Sensitive Sodium Channels	276
23. Phytochemical Antagonism of γ -Aminobutyric Acid Based Resistances in <i>Diabrotica</i>	288
INDEXES	
Author Index	310
Affiliation Index	310
Subject Index	311
