Contributors v
Preface vii

1. Monitoring Persistent Organic Pollutants
   - I Introduction 1
   - II Purposes of monitoring 2
   - III Types of persistent organic pollutants 3
   - IV Selection of sampling material 5
   - V Organochlorine concentrations and selection of samples 6
   - VI Organization of monitoring programmes 21
   - References 26

2. Exposure and Residues
   - I Introduction 29
   - II The compartmental model 31
   - III Experimental data 53
   - IV Conclusions 67
   - Acknowledgment 70
   - References 70

3. Variations in the Intake and Elimination of Pollutants
   - I Introduction 73
   - II Factors affecting intake and elimination of foreign compounds 78
   - III Comparative intake and elimination in vivo 116
   - IV Conclusions 125
   - Acknowledgment 127
   - References 127

4. The Role of the Thyroid in the Production of Sublethal Effects by Organochlorine Insecticides and Polychlorinated Biphenyls
   - I Introduction 132
   - II DDT and its derivatives 133
   - III The thyroid gland : structure, control and function 135
   - IV Thyroid changes after feeding organochlorine insecticides 143
   - V Production of hyper- and hypothyroidism in animals fed organochlorine insecticides and their derivatives 148
   - VI The effects of hyper- and hypothyroidism on mammals and birds 159
   - VII The effects of a deficiency or excess of vitamin A 170
   - VIII Known sublethal effects of organochlorine insecticides 173
   - IX The hypothesis that the sublethal effects caused by organochlorine insecticides are largely due to aberrant thyroid activity and changes in vitamin A storage 194
   - X Thyroid effects of the Polychlorinated biphenyls 201
   - XI Possible mechanisms of action 203
   - XII Discussion and Conclusions 219
   - References 223

5. Effects of Organochlorine Insecticides on Animal Populations
   - I Introduction 231
   - II Reductions in Populations 233
   - III Increases of populations 236
   - IV Sublethal effects 241
   - V Genetic changes 244
   - VI Conclusions 245
   - References 247

6. Persistent Pesticides : An Economic and Legal Analysis
I Persistent pesticides : an economic analysis 249
II The regulation of pesticides 277
References 293

Subject Index 297
