Contributors to the Handbook – Volume II	iv
Special Notes Concerning the Use of this Volume	vii
List of Tables	xix
List of Figures	xx
Recommendations for the use of Herbicides	
1. Cereal Crops	1
2. Annual Crops other than Cereals	32
Bean	35
Beet	40
Broccoli – see cauliflower	
Brussels sprout	56
Cabbage	58
Carrot	60
Cauliflower	73
Celery	74
Flowers, Annual – see Chapter 3	
Kale	75
Leek	77
Lettuce	78
Maize	79
Mangel	40
Oil-seed rape	80
Onion	81
Parsley	82
Parsnip	84
Pea	85
Potato	91
Swede	96
Sweet corn	106
3. Biennial and perennial crops than Grassland	107
Section I Vegetables	107
Section II Fruit	109
Section III Flower crops and nursery stock	120
4. Grassland	129
Preparation for the new sward	130
Controlling weeds in the new sward	134
Controlling weeds in established swards	144
Notes on some common grassland weeds	148
5. Seed Crops	155
Grass, clover, lucerne and sainfoin (herbage) seed crops	155
Cereal seed crops	161
Fodder root and vegetable seed crops	161
6. Turf for Sport and Amenity Purposes	165
Section I Lawns and sports turf	165
Section II Road verges, airfields, golf course rough and similar areas	172

7.	Forestry	175
	Section I Forest nerieseries	176
	Section II Forest	182
	Section III Special situations	195
8.	Total weed Control on Non-Agricultural Land	197
9.	Aquatic Weeds	210
	Methods of control	211
	Code of practice for use of herbicides on weeds in water courses and lakes	217
10.	The Susceptibility of Weeds of Agriculture and Horticulture to Herbicides	222
	The susceptibility of herbaceous weeds to growth-regulator herbicides	223
	The susceptibility of annual weeds to foliage-applied herbicides	243
	The susceptibility of annual weeds to soil-applied residual herbicides	250
	Notes on the control of some individual weeds	256
	APPENDICES	
I	Glossary of Technical Terms	275
II	Conversion Table in British and Metric Mensuration	280
	Addendum	282
	Index	287
