Preface	ix
1. Introduction	1
2. Physicochemical Factors	12
3. Important Biochemical Reactions in Pesticides	27
4. Botanical Insecticides	39
5. Synthetic Insecticides I : Miscellaneous and Organochlorine Compounds	50
6. Synthetic Insecticides II : Organophosphorus and Carbamate Compounds	68
7. Fungicides	106
8. Herbicides	140
9. Fumigants	173
10. Rodenticides	176
11. Nematicides	185
12. Mollescicides	191
13. Some Novel Methods of Insect Control	194
14. Pesticides in the Environment	210
15. Future Developments	222
Index	229
