Editors' Preface	vii
Introduction	ix
1. The Shape of the Industry	1
2. Oils as Pesticides	20
3. Pesticides of Natural Origin	26
4. Synthetic Insecticides, Part I Miscellaneous and Organochlorines	40
5. Synthetic Insecticides, Part II Organophosphorus Compounds and Carbamates	64
6. Repellents, Attractants and other Behaviour-controlling Compounds	90
7. Chemicals used against other invertebrates	106
8. Pest Resistance, Predator Reduction and Wild-life Hazard	119
9. Chemicals Used Against Vertebrates	138
10. Systemic Pesticides	148
11. Chemicals for Weed Control	158
12. Fungal Diseases and Protection by Heavy Metal Compounds	191
13. Sulphur, Organosulphur and other Organic Fungicides	212
14. Plant Growth Modification	230
15. Application of Pesticides	237
16. Formulation	250
17. Fumigants	275
18. Future Trends	289
Glossary	305
Index	311
