I	Introduction	
	1. Introduction to Food-Pest Ecology and Management	3
	2. World Resources and Food Losses to Pests	5
	3. Origins of Insects as Storage Pests	13
	4. Storage Ecosystems	17
II	Ecology	
	5. Ecology and Control of Microorganisms Decomposing Stored Foods	33
	6. Mite Pests in Stored Food	57
	7. Insect Pests of Minor Importance	81
	8. Ecological and Behavioral Aspects of Cockroach management	85
	9. The Asian Cockroach : Implications for the Food Industry and Complexities of Management Strategies	121
	10. Beetles : coleoptera	131
	11. Spider Beetles : ptnidae	177
	12. Biology and Ecology of Moth Pests of Stored Foods	181
	13. Synanthropic Flies : Diptera	195
	14. Ants : Formicidae, Hymenoptera	207
	15. Hymenopterous Parasites of Stored-Food Insect Pests	217
	16. Pest Bird Ecology and management	229
	17. Ecology and management of Bats as Food-Industry Pests	237
	18. Bionomics and Integrated Pest Management of Commensal Rodents	243
	19. Commentary on Microbial and Invertebrate Pest Ecology	315
	20. Commentary on Vertebrate Pest	323
III	Prevention	
	21. Preventive Aspects of Sanitation	327
	22. Design and Construction : Building Out Pests	331
	23. Protecting Packages Against Insects	345
	24. Prevention and Management of Pest Problems Associated with Transportation of Food	351
	25. Commentary on Prevention	357
IV	Survey and Control	
	26. Biological Methods of Survey and Control	361
	27. Host-Plant Resistance to Insect in Stored Cereals and Legumes	373
	28. Pest Resistance to Pesticides	385
	29. Physical Methods to manage Stored-Food Pests	399
	30. Chemical Control of Insect Pests in Bulk-Stored Grains	415
	31. Chemical Control of Rodent Pests in Bulk-Stored Grains	419
	32. Chemical methods to Control Insect Pests of Processed Foods	427
	33. Fumigation in the Food Industry	441
	34. Commentary on survey and Control	459
V	Health Considerations	
	35. Nutrition Changes Caused by pests in Food	463
	36. Food Pests as Disease Vector	469
	37. Food Pests as Disease Vectors	477
	38. Commentary on Health Aspects : Overt and Insidious Implications of Food Pests and Health	483
	39. The Food and Drug Administration and the Regulation of Food Sanitation	491
	40. Inspection Activities of the Food and Drug Administration	497
	41. Regulatory and Residue Issues in the U.S. Environmental Protection Agency	501
	42. Regulatory and Inspection Functions in the U.S. Department of Agriculture	505

43.	Food Industry Self-Inspection	519
44.	Commentary on regulatory	529
45.	Commentary on Inspection Aspects	531
VII	Management	
46.	Principles of Rearing Stored – Product Insects and of Insectary Management	535
47.	Education Strategies for Food-Pest Managers	545
48.	Professional and Consultant Services	549
49.	Integrated Pest Management for the Food Industry	551
50.	Commentary on Food-Pest Ecology and Management	557
VIII	Glossary and Indexes	
	Glossary	561
	Taxonomical Indexes	565
	Subject Index	573
