I	Part I – Fundamentals of Animal Nutrition The Various Food Nutrients	1
II	The Digestion, Absorption, and Use of Food	1 20
III	Measuring the Usefulness of Feeds	37
IV	Factors Affecting the Value of Feeds	57
V	Proteins – Fats – Carbohydrates	70
VI	Minerals in Livestock Feeding	88
VII	Vitamins in Livestock Feeding	119
VIII	Maintaining Farm Animals	149
IX	Growth – Fattening – reproduction	168
X	Production of Milk, Work, and Wool	189
XI	Balanced Rations – Feeding Standards	202
XII	Economy in Feeding Livestock	215
	Part II – Feeding Stuffs	
XIII	Pasture and Other Forage	230
XIV	Hay and Haymaking	253
XV	Silage and Crops for Silage	272
XVI	Legumes for Forage	296
XVII	Indian Corn and Sorghums for Forage	336
XVIII	The Hay and Pasture Grasses – the Cereals for Forage – Straw	359
XIX	Roots, Tubers, and Miscellaneous Forages – Poisonous Plants and Poisonous Feeds	385
XX	Corn and Oat Grains and Their By-Products	407
XXI	The other Cereals and By-Products	437
XXII	Other Seeds and Their By-Products	465
XXIII	Miscellaneous Concentrates	510
XXIV	Manurial Value of Feeding Stuffs	564
	Part III – Feeding Farm Animals	
XXV	General Problems in Dairy Husbandry	574
XXVI	Feeding and Caring for Dairy Cows	627
XXVII	Raising Dairy Cattle	657
XXVIII	General Problems in Beef Production	692
XXIX	Feed and Care of Beef Cattle – Methods and Costs of Beef Production – Veal	721
WWW	Production Constant less in Share Park stiers	731
XXX	General problems in Sheep Production	767
XXXI	Feeding and Caring for Sheep and Lambs – Fattening Lambs – Goats	790
XXXII XXXIII	horses and Mules – General problems	821 831
XXXIV	Feeding and Caring for Horses General Problems in Swine Husbandry	842
XXXV	Feeding and Care of Swine	894
XXXVI	General Problems in Poultry Production	928
XXXVII	Feeding and Caring for Poultry	968
