Acknowledgements	9
Introduction	11
PART I. DEFINITION AND BACKGROUND OF MODERN PASTEURIZATION	
1. Definition of modern pasteurization	17
2. Background of modern pasteurization	20
PART II. BUILDINGS, PLANT, AND METHODS	
3. The dairy building	33
4. Pre-pasteurization operations	45
5. Types of pasteurizing plant	64
6. Description of the modern HTST plant	74
7. Plant operation and equipment concerned	93
8. Services	119
9. Pasteurized milk in the consumer's home	160
PART III. LABORATORY CONTROL	
10. Why the control laboratory is necessary	165
11. Control of raw milk	168
12. Control of pasteurization efficiency	180
13. Detection of post-pasteurization contamination	185
14. Control of cleaning and sterilization efficiency	187
15. Bacteriological control of water-supply	190
16. Training of staff for the control laboratory	191
ANNEXES	
Annex 1. Apparatus, special chemicals, and glassware for laboratory control	195
Annex 2. Pasteurization legislation	200
Select bibliography	203
