1	Introduction	1
2	Ecological principles	3
2.1	Running water ecosystems	3
2.1.1	Geology and climate	3
2.1.2	Water velocity	3
2.1.3	Shear stress and substrate distribution	4
2.1.4	Temperature	6
2.1.5	Oxygen	6
2.2	River continuum	7
2.3	Biological zoning of running waters	9
2.4	Potentially natural species composition	13
2.5	Migration behaviour of aquatic organisms	15
2.6	Hazards to aquatic fauna caused by dams and weirs	18
3	General requirements of fish passes	21
3.1	Optimal position for a fish pass	22
3.2	Fish pass entrance and attraction flow	24
3.3	Fish pass exit and exit conditions	26
3.4	Discharge and current conditions in fish pass	27
3.5	Lengths, slopes, resting pools	28
3.6	Design of the bottom	29
3.7	Operating times	29
3.8	Maintenance	30
3.9	Measures to avoid disturbances and protect the fish pass	30
3.10	Integration into the landscape	30
4	Close-to-nature types of fish passes	31
4.1	Bottom ramps and slopes	31
4.1.1	Functional principle	31

4.1.2	Design and dimensions	32
4.1.2.1	Construction styles	32
4.1.2.2	Plan view	34
4.1.2.3	Longitudinal section	34
4.1.3	Remodelling of drops	35
4.1.4	Conversion of regulable weirs into dispersed or cascaded ramps	35
4.1.5	Overall assessment	36
4.1.6	Examples	37
4.2	Bypass channels	41
4.2.1	Principle of functioning	41
4.2.2	Design and dimensions	41
4.2.2.1	Plan view	42
4.2.2.2	Longitudinal section	42
4.2.2.3	Channel cross-section	43
4.2.2.4	Big boulders and boulder sills	43
4.2.2.5	Design of the water inlet and outlet areas of the bypass channel	44
4.2.2.6	Crossings	45
4.2.3	Overall assessment	45
4.2.4	Examples	47
4.3	Fish ramps	50
4.3.1	Functional principle	50
4.3.2	Design and dimensions	50
4.3.2.1	Plan view	50
4.3.2.2	Longitudinal section	51
4.3.2.3	Body of the ramp	51
4.3.2.4	Big boulders and boulder sills	52
4.3.2.5	Bank protection	52
4.3.2.6	Stabilized zone downstream of the fish ramp	52
4.3.3	Special cases	53
4.3.3.1	Rough-channel pool pass	53
4.3.3.2	Pile pass	53

	4.3.4	Overall assessment	54
	4.3.5	Examples	55
4.4		Hydraulic design	61
	4.4.1	Flow formulae	61
	4.4.2	Flow resistance of perturbation boulders	61
	4.4.3	Design calculation of boulder sills	64
	4.4.4	Critical discharge over bottom ramps and slopes	67
	4.4.5	Trial runs	68
5		Technical fish passes	69
	5.1	Pool pass	69
	5.1.1	Functional principle	69
	5.1.2	Design and dimensions	69
	5.1.2.1	Plan view	69
	5.1.2.2	Longitudinal section	70
	5.1.2.3	Pool dimensions	70
	5.1.2.4	Cross-wall structures	71
		5.1.2.4.1 Conventional pool pass	71
		5.1.2.4.2 Rhomboid pass	72
		5.1.2.4.3 Humped fish pass	73
	5.1.3	Hydraulic design	73
	5.1.4	Overall assessment	75
	5.1.5	Examples	76
	5.2	Slot passes	78
	5.2.1	Principle of functioning	78
	5.2.2	Design and dimensions	78
	5.2.2.1	Top-view plan	78
	5.2.2.2	Longitudinal section	78
	5.2.2.3	Pool dimensions	78
	5.2.2.4	Structural characteristics	79
	5.2.2.5	Bottom calculation	80
	5.2.3	Hydraulic calculation	80
	5.2.4	Overall assessment	84

	5.2.5	Example	86
5.3		Denil pass	87
	5.3.1	Functional principle	87
	5.3.2	Design and dimensions	88
		5.3.2.1 Top-view plan	88
		5.3.2.2 Longitudinal section	88
		5.3.2.3 Channel	89
		5.3.2.4 Cross-channel structures	89
		5.3.2.5 Water inlet and water outlet of the pass	89
	5.3.3	Hydraulic calculations	90
	5.3.4	Overall assessment	92
	5.3.5	Example	93
5.4		Eel ladders	95
	5.4.1	Peculiarities of eel migration	95
	5.4.2	Design	95
	5.4.3	Overall assessment	96
5.5		Fish lock	96
	5.5.1	Functional principle	96
	5.5.2	Design	97
	5.5.3	Overall assessment	97
	5.5.4	Example	98
5.6		Fish lift	100
	5.6.1	Functional principle	100
	5.6.2	Structure	100
	5.6.3	Overall assessment	100
	5.6.4	Example	101
6		Monitoring of fish passes	103
	6.1	Objective of monitoring	103
	6.2	Methods	103
		6.2.1 Fish traps	104
		6.2.2 Blocking method	104
		6.2.3 Marking	104

6.2.4	Electro-fishing	106
6.2.5	Automatic counting equipment	106
6.3	Assessment of results	106
7	Legal requirements	109
7.1	New installations	109
7.2	Existing installations	109
8	References	111
9	Table of symbols and signs	115
10	Glossary	117
	Photo credit	118
Appendix :	Overview of the most frequently used construction types of fish passes	119
