

CONTENTS

1. Invertase	1
2. Lactases	23
3. Enzymes Capable of Hydrolysing Maltose	49
4. Trehalases	81
5. The Human Sucrase <u>I</u> somaltase Complex: Physiological, Biochemical, Nutritional and Medical Aspects	107
6. Cellobiase, Melibiase and Other Disaccharidases	141
7. Biosynthesis and Metabolism of Food Disaccharides	167
8. Enzymic Deficiency and Malabsorption of Food Disaccharides	183
Index	213
