<i>Series Editor's Foreword</i>	<i>ix</i>
<i>Preface</i>	<i>xii</i>
<i>Acknowledgements</i>	<i>xiv</i>
<i>Introduction</i>	<i>xv</i>
<b>Chapter 1 Viticulture – The Basics</b>	<b>1</b>
1.1 The structure of the grape berry	1
1.1.1 Stalks	2
1.1.2 Skins	2
1.1.3 Yeasts	2
1.1.4 Pulp	3
1.1.5 Pips	4
1.2 The grape vine	4
1.3 What is a grape variety?	5
1.4 Reasons for grafting	6
1.5 <i>Phylloxera vastatrix</i>	7
1.6 Rootstocks	9
1.7 The lifespan of the vine	11
<b>Chapter 2 Climate</b>	<b>12</b>
2.1 Climatic requirements of the grape vine	12
2.1.1 Sunshine	12
2.1.2 Warmth	13
2.1.3 Cold winter	13
2.1.4 Rainfall	13
2.2 Climatic enemies of the grape vine	14
2.2.1 Frost	14
2.2.2 Hail	14

2.2.3	Strong winds	15
2.2.4	Excessive heat	15
2.3	Mesoclimate and microclimate	15
2.3.1	Water	15
2.3.2	Altitude	16
2.3.3	Aspect	16
2.3.4	Woods and trees	16
2.4	The concept of degree days	17
2.5	Impact of climate	17
2.6	Weather	18
<b>Chapter 3 Soil</b>		<b>20</b>
3.1	Soil requirements of the grape vine	20
3.1.1	Good drainage	20
3.1.2	Fertility	21
3.1.3	Nutrient and mineral requirements	21
3.2	Influence of soils upon wine style and quality	21
3.3	Soil types suitable for viticulture	22
3.4	Soil compatibility	23
3.5	Terroir	23
<b>Chapter 4 The Vineyard</b>		<b>24</b>
4.1	Vineyard location	24
4.2	Density of planting of vines	25
4.3	Training systems	26
4.3.1	Main types of vine training	26
4.3.2	Other training systems	29
4.4	Pruning methods and canopy management	30
4.5	Irrigation	31
4.6	The growing season and work in the vineyard	32
<b>Chapter 5 Pests and Diseases</b>		<b>34</b>
5.1	Important vineyard pests	34
5.2	Diseases	36
5.3	Prevention and treatments	38

<b>Chapter 6 Environmental Approaches in the Vineyard</b>	<b>39</b>
6.1 Integrated pest management (IPM)	39
6.2 Organic viticulture	40
6.3 Biodynamic viticulture	42
<b>Chapter 7 The Harvest</b>	<b>44</b>
7.1 Grape ripeness and the timing of picking	44
7.2 Harvesting methods	45
7.2.1 Hand picking	45
7.2.2 Machine picking	46
7.3 Style and quality	47
<b>Chapter 8 Vinification – The Basics</b>	<b>48</b>
8.1 Basic principles of vinification	48
8.2 Winery location and design	49
8.3 Winery equipment	50
8.3.1 Fermentation vats	51
<b>Chapter 9 Red Wine Making</b>	<b>54</b>
9.1 Destemming and crushing	54
9.2 Must preparation	55
9.3 Fermentation, temperature control and extraction	57
9.3.1 Fermentation	57
9.3.2 Temperature control	57
9.3.3 Extraction	58
9.4 Maceration	58
9.5 Racking	59
9.6 Pressing	59
9.7 Malolactic fermentation	60
9.8 Blending	60
9.9 Maturation	60
<b>Chapter 10 Dry White Wine Making</b>	<b>62</b>
10.1 Crushing and pressing	62
10.1.1 Crushing	62
10.1.2 Pressing	62

10.2	Must preparation	63
10.3	Fermentation	63
10.4	Malolactic fermentation	64
10.5	Maturation	64
<b>Chapter 11 Preparing Wine for Bottling</b>		<b>65</b>
11.1	Fining	65
11.2	Filtration	66
11.2.1	Earth filtration	66
11.2.2	Sheet filtration	67
11.2.3	Membrane filtration	67
11.3	Stabilisation	70
11.4	Adjustment of sulphur dioxide levels	71
11.5	Bottling	71
11.6	Closures	71
<b>Chapter 12 Detailed Processes of Red and White Wine Making</b>		<b>73</b>
12.1	Wine presses and pressing	73
12.1.1	Continuous press	73
12.1.2	Batch press	74
12.1.3	Horizontal plate press	74
12.1.4	Horizontal pneumatic press	74
12.1.5	Vertical basket press	76
12.2	Use of gases to prevent spoilage	78
12.3	Natural or cultured yeasts	78
12.4	Destemming	79
12.5	Fermenting sugar-rich musts to dryness	79
12.6	Colour extraction, concentration and tannin balance	79
12.6.1	Must concentrators and reverse osmosis	79
12.6.2	Cold soaking (pre-fermentation maceration)	81
12.6.3	Pump overs	81
12.6.4	Rack and return (délestage)	81
12.6.5	Rotary vinifiers	83
12.6.6	Thermo-vinification – heat extraction	83
12.6.7	Whole grape fermentation, carbonic and semi-carbonic maceration	83
12.6.8	Fixing colour	84

12.6.9	Post-fermentation maceration	84
12.7	Macro-, micro- and hyper-oxygenation	85
12.7.1	Hyper-oxygenation	85
12.7.2	Macro-oxygenation	85
12.7.3	Micro-oxygenation	85
12.8	Removal of excess alcohol	86
<b>Chapter 13</b>	<b>Barrel Maturation and Oak Treatments</b>	<b>87</b>
13.1	The influence of the barrel	87
13.1.1	Size of the barrel	88
13.1.2	Type and origin of oak (or any other wood)	88
13.1.3	Manufacturing techniques, including toasting	88
13.1.4	Amount of time spent in barrel	88
13.1.5	Where barrels are stored	89
13.2	Oak treatments	89
<b>Chapter 14</b>	<b>Making Other Types of Still Wine</b>	<b>91</b>
14.1	Medium-sweet and sweet wines	91
14.1.1	Medium-sweet wines	92
14.1.2	Sweet wines	92
14.2	Rosé wines	93
14.3	Liqueur (fortified) wines	94
14.3.1	Sherry production	94
14.3.2	Port production	95
14.3.3	Other well-known liqueur wines	96
<b>Chapter 15</b>	<b>Sparkling Wines</b>	<b>97</b>
15.1	Fermentation in sealed tank	97
15.2	Second fermentation in bottle	97
15.3	The traditional method	98
15.3.1	Pressing	98
15.3.2	Débourbage	99
15.3.3	First fermentation	99
15.3.4	Assemblage	99
15.3.5	Addition of liqueur de tirage	99
15.3.6	Second fermentation	100
15.3.7	Maturation	100

15.3.8	Rémuage	100
15.3.9	Stacking sur pointes	102
15.3.10	Dégorgement	102
15.3.11	Dosage (liqueur d'expédition)	102
15.3.12	Corking	102
<b>Chapter 16 Problems and Solutions</b>		<b>103</b>
16.1	Vintages – style and quality	103
16.2	Coping with problems in the vineyard	104
16.3	Handling fruit in the winery	105
16.4	Problems in winemaking	106
16.4.1	Delay in processing fruit	106
16.4.2	Lack of fruit selection	106
16.4.3	Problems with crushing, destemming or pressing	107
16.4.4	Lack of control of fermentations	107
16.4.5	Delays in post-fermentation racking	107
16.4.6	Lack of attention to barrels	107
16.4.7	Poor or over-filtration	108
16.4.8	Careless bottling	108
<b>Chapter 17 Common Faults and their Causes</b>		<b>109</b>
17.1	2,4,6-Trichloroanisole	109
17.2	Oxidation	110
17.3	Excessive volatile acidity	111
17.4	Excessive sulphur dioxide	111
17.5	Reductivity	112
17.6	Brettanomyces	112
17.7	Dekkera	113
17.8	Geraniol	113
17.9	Geosmin	113
	Glossary	114
	Bibliography	122
	Useful Websites	124
	<i>Index</i>	127
