

CONTENTS

| | |
|---|-----|
| Preface | vii |
| A note on using the book | ix |
| Acknowledgements | xi |
| | |
| 1 Mineral water and other bottled waters | 1 |
| 1.1 Introduction | 1 |
| 1.2 Technology | 4 |
| 1.3 Chemical constitution of bottled waters | 10 |
| 1.4 Microbiology | 11 |
| | |
| 2 Fruit juices | 26 |
| 2.1 Introduction | 26 |
| 2.2 Technology | 28 |
| 2.3 Nutritional value of the major fruit juices | 59 |
| 2.4 Chemistry of the major fruit juices | 60 |
| 2.5 Microbiology | 68 |
| | |
| 3 Soft drinks | 73 |
| 3.1 Introduction | 73 |
| 3.2 Technology | 75 |
| 3.3 Chemistry | 103 |
| 3.4 Microbiological problems associated with soft Drinks | 118 |
| | |
| 4 Tea | 126 |
| 4.1 Introduction | 126 |
| 4.2 Agronomy | 128 |
| 4.3 Technology | 149 |
| 4.4 Biological activity of tea | 169 |
| 4.5 Chemistry of tea | 171 |
| | |
| 5 Coffee | 191 |
| 5.1 Introduction | 191 |
| 5.2 Agronomy | 192 |
| 5.3 Technology of coffee processing | 212 |
| 5.4 Biological activity of coffee | 233 |
| 5.5 Chemistry | 237 |

| | | |
|---|---|-----|
| 6 | Cocoa and chocolate-based beverages | 256 |
| | 6.1 Introduction | 256 |
| | 6.2 Agronomy | 258 |
| | 6.3 Technology | 261 |
| | 6.4 Cocoa-based beverages | 279 |
| | 6.5 Biological activity of cocoa | 283 |
| | 6.6 Chemistry | 284 |
| | 6.7 The microbiology of cocoa | 290 |
| 7 | Alcoholic beverages: I. Beer | 296 |
| | 7.1 Introduction | 206 |
| | 7.2 The central role of <i>Saccharomyces</i> | 297 |
| | 7.3 Technology of brewing | 300 |
| | 7.4 The chemistry of brewing and of beer | 331 |
| | 7.5 Microbiological problems associated with beer | 352 |
| 8 | Alcoholic beverages: II. Wine | 362 |
| | 8.1 Introduction | 362 |
| | 8.2 Technology of wine making | 363 |
| | 8.3 Chemistry of wine | 386 |
| | 8.4 Microbiology | 394 |
| 9 | Alcoholic beverages: III. Distilled spirits | 400 |
| | 9.1 Introduction | 400 |
| | 9.2 Technology | 401 |
| | 9.3 Chemistry | 434 |
| | Bibliography | 449 |
| | Index | 453 |
