PREFACE	vii
PART 1 INTRODUCTION TO PROTEINS	
1 General Comment	3
2 Protein chemistry	5
3 Proteins in diet	17
4 Vitamins	31
5 Minerals	35
6 Allergy, addiction, preference and prejudice	43
7 Mixtures and compounds	47
8 Preservation	50
9 Canning	55
PART 2 ANIMAL PROTEINS	
10 Meat	63
11 Birds and poultry	97
12 Dairy protein	107
13 Fish	119
PART 3 VEGETABLE PROTEINS	
14 Cereals	155
15 Fresh vegetables	161
16 Oilseeds	167

vi *Contents*

17	Pulses	183
18	Dehydrated vegetables in feed	186
19	Vegetable genetics	197
20	Monoculture	200
21	Infestation	203
22	Green leaf protein	209
PART 4 MICROBIAL PROTEINS		
23	Algae	219
24	Fungi	223
25	Yeasts	228
26	Bacteria	248
27	Oil	257
PART 5 PROTEIN ECONOMICS		
28	Variations in production, distribution and consumption	265
29	Agricultural outputs	275
30	Industrial protein	280
31	World protein supply and demand	289
32	Speculation	309
33	Natural situations (selected countries)	319
34	Future proteins	362
	INDEX	375
