PREFACE	xiii
ACKNOWLEDGEMENTS	xv
1. INTRODUCTION	1
Winery Classification	1
Required Utility Services	4
Glossary	14
2. ELECTRICAL SYSTEMS	17
Electrical Load Planning	17
Power Distribution System Preferences	19
Voltage Considerations and Preferences	20
Electrical Requirements for Process Equipment	24
Electrical Requirements for Site Utility Equipment	25
Electrical Power Considerations for Non-U.S. Wine-Producing Countries	26
Analysis of Rate Structures and Service Contracts	27
Energy Considerations in Winery Lighting	29
Controls, Instrumentation, Utility systems Monitoring Status, and Alarms	31
Power Loss and Surge Protection	34
Operation and Maintenance of Electrical Systems	35
Glossary	38
3. TELECOMMUNICATIONS	45
Definition	45
Business Aspects and Winery Communication Needs	45
Technology Changes Influencing Equipment Choices	46
System Choices, Limitations, and Advantages	50
Telecommunications Security	54
Computers and Wine-Industry-Focused Software	56
Maintenance and Operation of Telecommunication Systems	58
Glossary	58
4. SANITATION, STEAM, AND HOT WATER	64
Winery Design Concepts, Winery Age, and Sanitation	64
Cleaning System Options	67
Water Use Planning Guidelines (Cleaning)	75
Boilers and Boiler Water Quality	75
Primer on Boilers	77
Alternative Energy Sources for Hot Water	79
Maintenance and Operation of Steam / Hot Water Systems	80
Glossary	84
5. REFRIGERATION, VENTILATION, AND AIR CONDITIONING	86
Scope	86
Basic Principles	87
Refrigerants	93
Fermentation Heat Balance and Tank Thermal Stratification	96
Ventilation and Night-air Cooling	98
Insulation and Solar Energy Considerations	100
Operation and Maintenance	104
Glossary	107

6.	POTABLE WATER SUPPLY SYSTEMS	112
	Winery Site Water Resource Assessments	112
	Winery Water Development and Environmental Impact Issues	141
	Pressure Requirements	143
	Water Meters	147
	Water Storage	151
	Water Treatment	161
	Water Conservation	167
	Piping Pipe Materials, and Secondary Contamination	170
	Bottled-Water Service	171
	Standby Emergency Power	171
	Economical Oversizing of Water System Components for Future Expansion	173
	Water System Operation and Maintenance	174
	Glossary	175
7.	IRRIGATION WATER SUPPLY SYSTEMS AND RECLAIMED WASTEWATER	181
	Integration of Winery and Vineyard Functions	181
	Conflicts in Recycled Water Supply and Vineyard Irrigation Demand	181
	Vineyard Water Requirements	183
	Systems and Equipment	186
	Operation and Maintenance of Reclaimed Wastewater Drip Irrigation Systems	190
	Glossary	191
8.	WASTEWATER SYSTEMS	195
	Overview and System Separation Philosophy	195
	Treatment and Disposal of Sanitary Wastewater	196
	Winery Process Wastewater	225
	Wastewater Flows	225
	Process Wastewater Characterization	227
	Aboveground Aerobic Waste Treatment Systems and Performance Standards	236
	Treatability of Winery Process Wastewater	237
	Aerobic Treatment Options and Equipment Choices	242
	Clarification and Settling Aids	245
	System Expansion and Equipment Choices	248
	Wastewater Metering	253
	Winter Storage Requirements and Water Balance	254
	Other Reclaimed Wastewater Reuse Options	257
	All-Weather Access	260
	Fencing and Signage	260
	Operation and Maintenance of Process Wastewater Treatment and Disposal Systems	261
	Glossary	271
9.	LIQUIFIED PETROLEUM GAS SYSTEMS	278
	Introduction	278
	Gaseous Fuel Characteristics	279
	Design Details	280
	Odorized LP Gas, Forklift Garaging, and Gas Leak Detection	283
	Pressure Relief Valves	285
	Operational Maintenance of LP-Gas Systems	285
	Other Forklift Options	286
	Glossary	286
10.	FIRE PROTECTION SYSTEMS	288
	Winery Fire Hazard and Occupancy Class	288
	Fire Threats	290
	Structural Features for Fire Prevention and Spread Containment	295
	Fire Protection System Testing Institutes	296
	Fire Protection Water Supply Systems	301
	Fire Alarms and Instrumentation	323
	Sprinkler Systems	327

	Miscellaneous Fire Protection Equipment and Apparatus	335
	Operation and Maintenance of Fire Protection Systems	341
	Glossary	343
11.	<b>SOLID WASTE SYSTEMS</b>	349
	Overview	349
	Laws and Regulations Governing the Handling of Solid Waste	350
	Winery Solid Waste Characterization	352
	Winery Waste Generation Rate Estimates	369
	Solid Waste containers and Equipment	372
	Solid Waste System Operation and Maintenance	376
	Wineries and Adopt-a-Highway Programs	377
	Glossary	378
12.	<b>WINERY UTILITIES AND HEALTH AND SAFETY PROGRAMS</b>	382
	Introduction	382
	Human Behavior and High-Risk Job Activities	384
	Workers' Compensation Law (WCL)	385
	Winery Operations and Air Resources	386
	Noise	391
	Confined Space Regulations	393
	Machinery Guards, Walking and Working Surfaces	393
	Site Utilities and Health and Safety Planning	396
	Glossary	421
	Appendix	425
	Index	428
