Preface	xi
1. Origins of Packaging Development	1
The Industrial Revolution	5
The Birth of Packaging Development	8
National and International Recognition	10
Bibliography	12
2. Package Development : An Overview	15
Interrelationships	15
Developmental Paths	18
Bibliography	31
3. Packaging Materials	33
Ceramics	34
Metals	37
Plant Products	40
Plastics	46
ABS	54
Bibliography	69
4. Package Forms	72
Rigid and Semirigid Package Forms	74
Flexible Package Forms	113
Converting of Flexible Packaging Materials	119
Bibliography	128
5. Package and Package Testing	130
Quality Testing of Packaging Materials	131
Identification of Unknown Packaging materials	148
Quality Testing of Fabricated Packages	157
Product-Package compatibility Testing	159
Shipping and Abuse Testing	161
Bibliography	166
6. The Packaging Process : Testing a Segment of Manufacturing Operations	168
The Manufacturing Process	169
The Packaging Process	180
Development of Equipment	198
Bibliography	201
7. Packaging Equipment	205
Can Packaging Equipment	205
Glass Packaging Equipment	217
Other Primary Packages	232
Paperboard Cartons	232
Equipment for Flexible Packaging	238
Thermoformed Packages	247
Bibliography	249
8. The Relationship of Packaging to Marketing	253
Product Life Cycle	254
Pricing Policy	256

	Distribution Policy	256
	Market Research	257
	Product-Package Promotion	259
	A Marketing Case History : Doy-N-Pack vs. BrikPak	262
	Package Styling and Design	263
	Bibliography	277
9.	Governmental Regulations Affecting Packaging	279
	Federal Food, Drug, and Cosmetic Act – 1938	283
	The 1958 Food Additives Amendment to the Food, Drug, and cosmetic Act	283
	Food Additive Definition	288
	New Amendment to Food Additive Legislation (1983)	290
	Manufacturing Regulations	290
	Future Activity	292
	The FDA and drugs	293
	The Color Additive Amendment	295
	The “ Fair Packaging and Labeling” Bill	295
	Other Governmental Regulations	296
	FDA versus USDA	300
	Freight Regulations	304
	Bibliography	307
10.	Strategic Planning in Packaging	309
	Test	309
	Bibliography	334
11.	Technological Forecasting	335
	Technology	337
	Why Plan?	338
	Why Forecast?	338
	What is Technology?	339
	Why Is Forecasting Possible?	340
	Origins of Technological Forecasting	340
	What Is Technological Forecasting	341
	Objective of the Forecast	342
	Qualification of the Person or Institution Making the Statement about the Future	342
	Methodologies Used to Provide a picture of the Future	344
	Interactions External to Technology	347
	Process of Technological Innovation	349
	Intuitive Forecasting	353
	Trend Extrapolation	355
	Monitoring	358
	Structural Analysis	359
	Modeling	360
	Cross-Impact Analysis	362
	Scenario Generation	363
	Conclusion	364
	Bibliography	366
	Index	367
