

CONTENTS

Part I : Introduction	1
Chapter 1 Past History	3
Chapter 2 Legislation	31
Chapter 3 Emergency Planning and Response	79
Part II : Process and Plant Accidents	107
Chapter 4 Process Fundamentals	109
Chapter 5 Process Equipment	133
Chapter 6 Classification of Accidents	179
Chapter 7 Fires, Explosion, Toxic Emissions, and Hazardous Spills	203
Chapter 8 Process Applications	249
Part III : Health Risk Assessment	285
Chapter 9 Introduction to Health Risk Assessment	287
Chapter 10 Health Hazard Identification	299
Chapter 11 Dose-Response	315
Chapter 12 Exposure Assessment	353
Chapter 13 Health Risk Analysis and Characterization	395
Part IV : Hazard Risk Assessment	423
Chapter 14 Introduction to Hazard Risk Assessment	425
Chapter 15 Even/Hazard Identification	437
Chapter 16 Accident Causes and Probability	459
Chapter 17 Accident Consequences and Evaluation	483
Chapter 18 Hazard Risk Analysis	513
Part V : Quantitative Hazard Risk Assessment	539
Chapter 19 Hazard Risk Assessment fundamentals	541
Chapter 20 Hazard Risk Assessment Calculations	571
Chapter 21 Hazard Risk Analysis Applications	607
References	637
Index	639
