

CONTENTS

| | |
|----------------------------|------|
| Preface | xi |
| Contributors | xiii |
| Abbreviations and Acronyms | xix |

SECTION I. SAFETY MANAGEMENT AND POLICY

| | |
|---|----|
| 1. Chemical laboratory safety training | 3 |
| 2. Working Alone | 9 |
| 3. Personal Hygiene | 11 |
| 4. Drug enforcement agency chemical regulations | 15 |
| 5. Laboratory security | 21 |
| 6. Addressing the human dynamics of health and safety | 25 |
| 7. Effective management of contractor/visitor safety | 32 |
| 8. The chemical hygiene plan | 38 |
| 9. Chemical safety information on the internet | 45 |
| 10. Understanding the toxic substances control act: compliance and reporting requirements | 53 |

SECTION II. RISK MANAGEMENT

| | |
|---|-----|
| 11. Introduction to risk assessment | 63 |
| 12. Communicating risk | 67 |
| 13. Standard operating procedures | 72 |
| 14. Occupational exposure limits | 75 |
| 15. Industrial hygiene exposure assessment – data collection and management | 81 |
| 16. Industrial hygiene exposure assessment – data analysis and interpretation | 102 |
| 17. Reproductive hazards in the workplace | 130 |
| 18. Epidemiology | 136 |
| 19. Carcinogenesis | 141 |
| 20. Toxicology | 148 |
| 21. Process safety reviews | 157 |
| 22. Safe entry into confined spaces | 166 |
| 23. The control of hazardous energy (Lockout/Tagout) | 172 |

SECTION III. EMERGENCY MANAGEMENT

| | |
|---|-----|
| 24. Emergency response planning and training | 181 |
| 25. Emergency equipment | 186 |
| 26. Emergency evacuation/shelter-in-place plans | 194 |
| 27. Flood contingency plans | 198 |

| | |
|-------------------------------------|-----|
| 28. Seismic safety | 201 |
| 29. Accident/incident investigation | 205 |
| 30. Chemical first aid | 208 |

SECTION IV. LABORATORY EQUIPMENT

| | |
|---|-----|
| 31. Specialized instrumentation and monitors | 215 |
| 32. Inert atmospheres work | 221 |
| 33. Preventive maintenance | 234 |
| 34. Health and safety in the microscale chemistry laboratory | 239 |
| 35. Laboratory scale-up and pilot plant operations | 249 |
| 36. Reducing electrostatic hazards associated with chemical processing operations | 256 |
| 37. Centrifuge safety | 265 |
| 38. Safe use of laboratory glassware | 272 |
| 39. Pressure/vacuum containing systems and equipment | 277 |
| 40. Laboratory ovens and furnaces | 282 |
| 41. Refrigerator, freezer, and cold room use in chemical laboratories | 289 |
| 42. Specialized laboratory containment-control hoods | 292 |
| 43. Laboratory chemical hoods | 299 |
| 44. Biological safety cabinets | 307 |

SECTION V. CHEMICAL MANAGEMENT

| | |
|---|-----|
| 45. Material safety data sheets | 317 |
| 46. Personal protective equipment | 322 |
| 47. Incompatibles | 338 |
| 48. Corrosives and irritants | 343 |
| 49. Hazardous catalysts in the laboratory | 345 |
| 50. Flammables and combustibles | 347 |
| 51. Identifying oxidizing and reducing agents | 358 |
| 52. Peroxidizable organic chemicals | 361 |
| 53. Disposal of shock- and water-sensitive, pyrophoric, and explosive materials | 371 |
| 54. Compressed gases | 377 |
| 55. Hydrogenations | 383 |
| 56. Chemical inventory control and methods | 391 |
| 57. Chemical storage | 397 |
| 58. Cryogenic safety | 401 |
| 59. Explosive and reactive chemicals | 404 |

SECTION VI. RADIOLOGICAL AND BIOLOGICAL SAFETY

| | |
|---|-----|
| 60. Non-ionizing radiation | 413 |
| 61. Non-ionizing radiation : radio-frequency and microwave radiation | 421 |
| 62. Ionizing radiation : radiation safety program elements | 428 |
| 63. Ionizing radiation : fundamentals | 436 |
| 64. Radiation emergency response, decontamination, PPE | 446 |
| 65. Dosimetry | 452 |
| 66. Lasers | 458 |
| 67. Biological safety : program elements | 465 |
| 68. Research animal biosafety | 471 |
| 69. Biological safety : emergency response and decontamination procedures | 476 |

SECTION VII. LABORATORY DESIGN

| | |
|--|-----|
| 70. Isolation technology | 487 |
| 71. Lab design/radio synthesis lab design | 495 |
| 72. High-pressure test cells and barriers | 501 |
| 73. Clean rooms for semiconductors | 508 |
| 74. Ergonomics in design | 513 |
| 75. Ergonomic factors in laboratory design | 521 |
| 76. Design criteria for new laboratories and renovations | 528 |
| 77. Moving and decommissioning laboratories | 554 |
| 78. General ventilation design and control systems | 560 |
| 79. Elevators, stairs, ramps, and step stools | 566 |

SECTION VIII. ENVIRONMENTAL MANAGEMENT

| | |
|---|-----|
| 80. The disposal of chemical wastes | 573 |
| 81. Biological waste management | 598 |
| 82. Safe handling of biohazardous materials for transport | 603 |
| 83. Radioactive waste management and transportation | 608 |
| 84. Waste minimization : general | 615 |
| 85. Waste minimization : laboratories | 622 |
| 86. Environmental controls and liabilities | 626 |
| Index | 631 |
