

CONTENTS

Computer Control of Batch Reactors	1
Computer Control of a Batch Polyester Plant	5
Sequence Control System Considerations	12
Experiences in Batch Chemical Process Control	15
Software and Hardware Considerations in Computer Control of Batch Processes	22
“ALBERT,” Union Carbide Corporation’s Approach to Batch Sequencing Control	28
Application of “ALBERT” to a Typical Batch Reaction Process	33
Some Aspects of In-House Training for Computer Control of Batch Processing	36
Combining Process Computer with Programmable Controllers for Effective Control of Batch Processes	41
Modular Software Enhancement for Sequential Control Systems	46
Computerized Sequenced Control – Moving Beyond Ladder Diagrams	49
