

CONTENTS

1. Diffusion	1
2. Transfer of material between phases	26
3. Principles of the design of absorption equipment	61
4. Design principles for multicomponent systems	98
5. Gas absorption equipment	127
6. Performance of absorption equipment	160
7. Simultaneous absorption and chemical reaction	193
8. Solvent extraction	237
9. Index	271
